Das Neue Berlin

Samuel James Hume

Das Neue Berlin:

Science Fiction Literature in East Germany Sonja Fritzsche, 2006 East German science fiction enabled its authors to create a subversive space in another time and place One of the country's most popular genres it outlined futures that often went beyond the party's official version Many utopian stories provided a corrective vision intended to preserve and improve upon East German communism This study is an introduction to East German science fiction The book begins with a chapter on German science fiction before 1949 It then spans the entire existence of the country 1949 1990 and outlines key topics essential to understanding the genre popular literature socialist realism censorship fandom and international science fiction An in depth discussion addresses notions of high and low literature elements of the fantastic and utopia as critical narrative strategies ideology and realism in East German literature gender and the relation between literature and science Through a close textual analysis of three science fiction novels the author expands East German literary history to include science fiction as a valuable source for developing a multi faceted understanding of the country's short history Finally an epilogue notes new titles and developments since the fall of the Berlin Wall

Against the Commons Álvaro Sevilla-Buitrago, 2022-09-27 An alternative history of capitalist urbanization through the lens of the commons Characterized by shared self managed access to food housing and the basic conditions for a creative life the commons are essential for communities to flourish and protect spaces of collective autonomy from capitalist encroachment In a narrative spanning more than three centuries *Against the Commons* provides a radical counterhistory of urban planning that explores how capitalism and spatial politics have evolved to address this challenge Highlighting episodes from preindustrial England New York City and Chicago between the 1850s and the early 1900s Weimar era Berlin and neoliberal Milan Ivaro Sevilla Buitrago shows how capitalist urbanization has eroded the egalitarian convivial life worlds around the commons The book combines detailed archival research with provocative critical theory to illuminate past and ongoing struggles over land shared resources public space neighborhoods creativity and spatial imaginaries *Against the Commons* underscores the ways urbanization shapes the social fabric of places and territories lending particular awareness to the impact of planning and design initiatives on working class communities and popular strata Projecting history into the future it outlines an alternative vision for a postcapitalist urban planning one in which the structure of collective spaces is ultimately defined by the people who inhabit them

The Palgrave Handbook of Literature and the City Jeremy Tambling, 2017-02-17 This book is about the impact of literature upon cities world wide and cities upon literature It examines why the city matters so much to contemporary critical theory and why it has inspired so many forms of writing which have attempted to deal with its challenges to think about it and to represent it Gathering together 40 contributors who look at different modes of writing and film making in throughout the world this handbook asks how the modern city has engendered so much theoretical consideration and looks at cities and their literature from China to Peru from New York to Paris from London to Kinshasa It looks at some of the ways in which

modern cities whether capitals shanty towns industrial or rust belt have forced themselves on people s ways of thinking and writing
