## **Dante And The Romantics:**

*Dante and the Romantics* A. Braidia, 2004-09-30 The British Romantic poets were among the first to realise the centrality of the Divine Comedy for the evolution of the European epic This study explores the significance of Dante for Percy Bysshe Shelley John Keats and William Blake What was their idea of Dante Why did they feel the need to approach his Christian epic on the afterlife This study aims to answer these questions by focusing on the three poets preoccupation with form and language

**Dante and the Romantics** Antonella Braidia, 2004-09-30 Dante played a major role in the evolution of the European epic a fact first recognised by the Romantic poets Braidia explores the importance of the Divine Comedy for Keats Shelley Blake seeking to know what drew them to this Christian fantasy

**The Vision of Dante** Edoardo Crisafulli, 2003 The popular and critically acclaimed translation of Dante s Divine Comedy into English was carried out by the Anglican Reverend H F Cary He has an honoured place in the rediscovery of Dante s masterpiece in Romantic Britain Shelley Byron Wordsworth and Coleridge lavished praise upon his translation and it was through Cary s *The Vision of Dante* that the beauty and intricacies of the Italian poem The book examines crucial aspects of British culture in the 19th Century and throws light on the manifold transformations of Dante s imagery into English poetry

[Depicting Dante in Anglo-Italian Literary and Visual Arts](#) Christoph Lehner, 2017-05-11 In the course of 750 years Dante Alighieri has been made into a universally important icon deeply engrained in the world s cultural memory This book examines key stages of Dante s appropriation in Western cultural history by exploring the intermedial relationship between Dante s Divina Commedia the tradition of his iconography and selected historical literary and artistic responses from British artists in the 19th and 20th centuries The images and iconographies created out of Dantean appropriations almost always centre around the triad of allegory authority and authenticity These three important aspects of revisiting Dante are found in the Dantean image fostered in Florence in the 14th and 15th centuries and feature prominently in the works of Dante Gabriel Rossetti T S Eliot and Tom Phillips Their appropriation of Dante represents landmarks in the productive reception of the Florentine and is invariably linked to a tradition of Dante studies established in Britain during the middle of the 19th century For Dante Gabriel Rossetti the Florentine provides a model for Victorian Dantean self fashioning and becomes an allegory of authenticity and morality For T S Eliot Dante represents the voice of literary authority in Modernist poetry and serves as the allegory of a visionary European author For Tom Phillips the engagement with Dante and his text represents an intertextual and intermedial endeavour which provides him with a rich cultural tapestry of art thought and ideas on the Western world The main focus of this study therefore is on how Dante s image was fixed in the first 200 years of his appropriation in Florence how fruitfully the Dantean images and his text have been taken up and used for creative and intellectual production in Britain over the course of the past centuries and what moral literary or political messages they continue to convey

explores Yeats's mature revision of that form. The second group of four chapters, *Remaking Poets*, stresses the dynamics of literary influence by which poets turn their forerunners into figures helpful to their own development. The first three examine Yeats's encounter with Dante, Spenser, Browning, and Tennyson respectively; the fourth treats Pound's remaking of the poet he called his poetic father, Browning, in a way that suggests the limits of anxiety models of poetic influence. For this volume, Professor Bornstein has revised and expanded a select group of his recent essays and added a new one on the Greater Victorian Lyric.

**ImageScapes** Christian Emden, Gabriele Rippl, 2010. The relationship between different media has emerged as one of the most important areas of research in contemporary cultural and literary studies. But how should we conceive of the relationship between texts and images today? Should we speak of collaboration, interaction, or competition? What is the role of literary, historical, and scientific texts in a culture dominated by the visual? What is the status of images as cultural artefacts? Are images forms of representation, do they simulate reality, or do they intervene in the material world? And how do literature and cultural theory themselves, essentially textual discourses, react to the much-discussed visual turn within Western culture? Does the concept of intermediality allow literary, historical, and cultural scholars to envisage a more general theory of media? Addressing these questions from a programmatic point of view, the articles in this volume investigate the effects of different forms of representation in modern European and American literature, media, and thought.

Romanticism, Rhetoric and the Search for the Sublime Craig R. Smith, 2018-11-07. Relying on the author's established expertise in rhetorical theory and political communication, this book re-contextualizes Romantic rhetorical theory in the late 18th and early 19th centuries to provide a foundation for a Neo-Romantic rhetorical theory for our own time. In the process, it uses a unique methodology to correct misconceptions about many Romantic writers. The methodology of the early chapters uses a dialectical approach to trace Romanticism and its opposition, the Enlightenment, back through Humanism and its opposition, Scholasticism, to St. Augustine. These chapters include a revisionist analysis of the church's treatment of Galileo in the course of showing how difficult it was for scientific study to be accepted in the academic world. The study also re-conceptualizes Jean-Jacques Rousseau, David Hume, and Edmund Burke as bridge figures to the Romantic Era instead of as Enlightenment figures. This move throws new light on the major artists of the Romantic Era who are examined in chapters seven and eight. Chapter nine focuses on Percy Bysshe Shelley and his development of the rhetorical poem and thereby provides a new genre in the Romantic catalogue. Chapter ten uses the foregoing to analyse and reconceptualize the rhetorical theories of Hugh Blair and Thomas De Quincey. The concluding chapter then synthesizes their theories with relevant contemporary rhetorical theories, thereby constructing a Neo-Romantic theory for our own time. In the process, this book links the Romantics' love of nature to the current environmental crisis.
