Darkest Heart:

The Darkest Heart Amelie Vesper, The Darkest Heart He is the Scarlet Wolf cold brutal untouchable She is the light he never wanted but can't resist Declan was born to rule an empire of blood and silence Heir to the most feared mafia family in America his name is whispered in fear his body inked in violence his soul buried in shadows After losing the only woman he ever loved he made a vow no feelings no attachments no weaknesses Nothing will break his walls Until her Caterina the fiery Bratva princess arrives in New York with a smile that defies danger and a spirit too wild to cage She dreams of freedom of a life beyond the mafia's chains but fate puts her in the path of the most dangerous man she could meet Sweet stubborn and reckless Caterina is everything Declan should hate and everything he can't ignore Their worlds are poison together Yet every look every clash every stolen breath pulls them closer She shines like hope in the middle of his ruin He kills like there's no redemption for him left But when bloodlines betrayals and buried traumas rise even the Scarlet Wolf may not be able to protect her from his world or himself

Who Owns Football? David Hassan, Sean Hamil, 2013-09-13 The commercialization of sport since the 1990s has had a number of consequences The market forces that have defined commercialization notably pay per view television whilst initially welcomed as important new sources of revenue have also had the unanticipated consequences of destabilizing many sporting competitions and institutions undermining the financial future of clubs in their traditional role as key social and cultural institutions This has been manifested in the paradox of chronic financial loss making amongst professional sports clubs in an era of exponential revenue growth a trend exemplified by the experience of Italy s Series A and the English Premier League both cases examined in detail in this book But at the same time some traditional sporting organizations have sought with some success to chart a middle way retaining traditional sporting movement objectives whilst also embracing a form of commercialism The Gaelic Athletic Association in Ireland the supporter owned FC Barcelona football club and New Zealand rugby union offer illustrative examples of such strategies examined in detail This book explores the background to this clash of commercial and traditional sporting objectives and debates the consequences for wider sports governance This book was published as a special issue of *Soccer and Society*

The Ghost Lab Matthew Hongoltz-Hetling, 2025-05-20 A surprising and compelling journey into the business of paranormal investigation and the state of scientific literacy in America In 2010 a sleepy small town business plaza in rural New Hampshire rented space to an unusual tenant a ghost laboratory The Kitt Research Initiative s mission was to use the scientific method to document the existence of spirits Founder Andy Kitt was known as a straight shooter and was unafraid perhaps eager to offend other paranormal investigators by exposing the fraudulence of their less advanced techniques Kitt s efforts attracted flocks of psychics alien abductees witches mediums ghost hunters UFOlogists cryptozoologists and warlocks from all over New England and the world And there were plenty of them around *The Ghost Lab* tells the astonishing story of the wild ecosystem of paranormal profiteers and consumers But it also reveals how the twin scourges of declining scientific literacy and eroding trust in institutions have created space for armies of pseudoscientists to step into the minds of an increasingly credulous public With his distinct voice eye for a story and ability to show how one community s experience reflects that of a society Matt Hongoltz Hetling crafts a powerful
