

An aerial photograph of a beach at sunset. The ocean waves are breaking on the shore, creating white foam. The sand is a warm, golden-brown color, and the sky is a mix of orange and blue. The overall mood is serene and contemplative.

A new dawn always breaks after
darkness, but only those who have
survived the night live to see it.

been imperatively decided for me by the exigencies of fact not by the rules of art I have been compelled to deal with an epoch which I should never have touched if I had not seen in the features which it presented one main explanation of an historical event the most sacred and the most interesting on which the mind can dwell About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
