Das Judentum In German:

Jews and Sciences in German Contexts Ulrich Charpa, Ute Deichmann, 2007 The authors examine the relationship between the cultural religious and social situation of German Jews on the one hand and their scientific activities on the other They discuss the sensitive question of the specificity of the approaches of Jewish scientists and draw attention to the debate concerning the relationship between Judaism and academic research ranging from the early 19th century theorizing on science and Judaism to 20th century issues e g the controversies on Jewish physics mathematics etc in the 1920s and 30s Contributors Ute Deichmann Anthony S Travis Moritz Epple Raphael Falk Ulrich Charpa Nurit Kirsch Yael Hashiloni Dolev Aharon Loewenstein Ruth Sime Simone Wenkel

Jewish Emancipation in a German City Shulamit S. Magnus, 1997 This work seeks to understand how in nineteenth century Germany Jews and non Jews shaped and experienced Jewish emancipation a process whereby Jews were freed from ancient discriminatory laws and over the course of decades became citizens Unlike most other works on German Jewish emancipation this book examines how so fundamental and dramatic a transformation in the relation of Jews and non Jews was experienced by the people who lived it how economic social political and ideological forces interacted to bring about change and how accommodation actually occurred The book focuses on Cologne the most populous and economically powerful city in the Rhineland Jews excluded since 1424 returned under French Revolutionary rule but Napoleonic legislation in 1808 compromised their equality and gave city elders an opportunity to reassert Cologne's historic control when the territory passed to Prussia in 1814 A long struggle between municipal and state authorities ensued with the city hostile to Jewish rights but ultimately losing its bid to exercise local sovereignty over the Jews The 1840s saw the advent of the railway age and Cologne's economic and political climate was transformed The city soon became the center for Rhenish liberal advocacy of Jewish rights led by regional entrepreneurs in association with Jewish bankers The author demonstrates however that Jewish emancipation was not simply conferred on Jews from above or engineered by financial mavericks in the community Rather it occurred as part of a broad societal transformation and as the result of the efforts and behavior of ordinary Jews whose voices the author records The book reveals how such Jews responded to the lure of equality and the pressures of continued discrimination in their business and private lives and shows how their response fostered a new positive perception of Jews as honorable people deserving of civic inclusion It also illustrates how Jews enjoying unprecedented success and acceptance fought not only for individual rights but for the right of organized Judaism to achieve a secure place in society

The Transformation of German Jewry, 1780-1840 David Sorkin, 1990-10-18 The transformation of German Jewry from 1780 to 1840 exemplified a twofold revolution on one level the end of the feudal status of Jews as an autonomous community forced them to face a protracted process of political emancipation a far reaching social metamorphosis and growing racial anti-Semitism yet on another level their encounter with the surrounding culture resulted in their own intense cultural productivity In this ground breaking study David Sorkin argues

that emancipation and encounter with German culture and society led not to assimilation but to the creation of a new Jewish identity and community a true and vibrant subculture that produced many of Judaism's modern movements and fostered a pantheon of outstanding writers artists composers scientists and academics He contends that German Jewish subculture was based not as widely believed on nationalistic Jewish versus German or religious Jewish versus Christian disparities but rather on the struggle for freedom and social acceptance in German society By studying German Jewry's cultural history in its social and political context as well as in the larger setting of German history this study firmly asserts that the subculture both distinguished German Jewry from other European Jewish communities and accounted for its members prominent role in Jewish and general culture

German-Jewish Cultural Identity from 1900 to the Aftermath of the First World War Elisabeth Albanis,2013-04-09 By illustrating the quintessentially different self perceptions of three German writers of Jewish background all born in or around 1880 in Berlin this book examines a range of German Jewish identities in a socio cultural context in Wilhelmine Germany Moritz Goldstein 1880 1977 the conflict of his dual identity and the interplay between being a German writer and a cultural Zionist is covered first Particular attention is given to the genesis of his essay *Deutscher Parnassus* with its call for Jews to vacate their seats in German literary culture The range of positions unfolding in the debate following its publication in *Der Kunstwart* in 1912 serves to illustrate the spectrum of German Jewish self definition at the time In the second part the writings of Julius Bab 1880 1955 are examined in so far as they shed light on his advocacy of a synthesis of *Deutschtum* and *Judentum* The far side of the spectrum of German Jewish self definition is represented by Ernst Lissauer 1882 1937 who propagated complete assimilation considering the Jewish element as an obstacle which had to be overcome on the road to *Deutschtum* This study depicts how external cultural and political influences shaped the transformation of their ideas of what it meant to be Jewish in Germany and how they responded to increasing anti-Semitism By recognising the way in which the individual's cultural identity was constantly refashioned in the face of external challenges a fuller understanding of the evolving self perception of German Jews is reached

German History from the Margins Neil Gregor,Nils Roemer,Mark Roseman,2006-06-14 *German History from the Margins* offers new ways of thinking about ethnic and religious minorities and other outsiders in modern German history Many established paradigms of German history are challenged by the contributors new and often provocative findings including evidence of the striking cosmopolitanism of Germany's 19th century eastern border communities German Jewry's sophisticated appropriation of the discourse of tribe and race the unexpected absence of antisemitism in Weimar's campaign against smut the Nazi embrace of purportedly Jewish sexual behavior and post war West Germany's struggles with ethnic and racial minorities despite its avowed liberalism Germany's minorities have always been active partners in defining what it is to be German and even after 1945 despite the legacy of the Nazis murderous destructiveness German society continues to be characterized by ethnic and cultural diversity

Antisemitic Elements in the Critique of Capitalism in German Culture, 1850-1933 Matthew Lange,2007 This volume examines selected works of German literature from Gustav Freytag to Joseph Goebbels in relation to ethical socio economic and political texts from the economic take off period in the middle of the nineteenth century up to the rise of National Socialism and investigates two aspects of anti Semitic anti capitalistic representations contained therein First it traces how the Jews gained the dubious distinction of being the inventors even embodiment of capitalism and elaborates on negative traits assigned to both of them Second it examines how representations of specifically Jewish capitalists were instrumentalized both to discredit laissez faire and simultaneously to assist in the definition of a specifically German socio economic ethos **German Inflections** Heinrich Conrad Bierwirth,1908 **A Complete Grammar of the German Language** James Henry Worman,1868 **A Practical Guide to a Scientific Study of the German Vocabulary** August Prehn,1912 **Antisemitic Anticapitalism in German Culture from 1850-1933** Matthew Ryan Lange,2006 **Flügel's dictionary of the German and English languages, abridged, compiled by C.
