British Art and the First World War, 1914-1924 James Fox, 2015-07-30 The First World War is usually believed to have had a catastrophic effect on British art killing artists and movements and creating a mood of belligerent philistinism around the nation In this book however James Fox paints a very different picture of artistic life in wartime Britain Drawing on a wide range of sources he examines the cultural activities of largely forgotten individuals and institutions as well as the press and the government in order to shed new light on art s unusual role in a nation at war He argues that the conflict s artistic consequences though initially disruptive were ultimately and enduringly productive He reveals how the war effort helped forge a much closer relationship between the British public and their art a relationship that informed the country s cultural agenda well into the 1920s

Pictures-within-Pictures in Nineteenth-Century Britain Catherine Roach, 2017-07-05 Repainting the work of another into one s own canvas is a deliberate and often highly fraught act of reuse This book examines the creation display and reception of such images Artists working in nineteenth century London were in a peculiar position based in an imperial metropole yet undervalued by their competitors in continental Europe Many claimed that Britain had yet to produce a viable national school of art Using pictures within pictures British painters challenged these claims and asserted their role in an ongoing visual tradition By transforming pre existing works of art they also asserted their own painterly abilities Recognizing these statements provided viewers with pleasure in the form of a witty visual puzzle solved and with prestige in the form of cultural knowledge demonstrated At stake for both artist and audience in such exchanges was status the status of the painter relative to other artists and the status of the viewer relative to other audience members By considering these issues this book demonstrates a new approach to images of historic displays Through examinations of works by J M W Turner John Everett Millais John Scarlett Davis Emma Brownlow King and William Powell Frith this book reveals how these small passages of paint conveyed both personal and national meanings
