From Migrants to Refugees Jill Rosenthal,2023-10-06 In *From Migrants to Refugees* Jill Rosenthal tells the history of how Rwandan migrants in a Tanzanian border district became considered either citizens or refugees as nation state boundaries solidified in the wake of decolonization Outlining the process by which people who have long lived and circulated across the Rwanda Tanzania border came to have a national identity Rosenthal reveals humanitarian aid s central role in the ideological processes of decolonization and nation building From precolonial histories to the first Rwandan refugee camps during decolonization in the 1960s to the massive refugee camps in the 1990s Rosenthal highlights the way that this area became a testing ground for novel forms of transnational aid to refugees that had global implications As local and national actors refugees and international officials all attempted to control the lives and futures of refugee groups they contested the authority of the nation state and the international refugee regime This history Rosenthal demonstrates illuminates how tensions between state and international actors divided people who share a common history culture and language across national borders ... **Permanent Mandates Commission** League of Nations,1925 **Language and Collective Mobilization** Nadra O. Hashim,2009-06-16 *Language and Collective Mobilization* analyzes the origins of communal conflict in five phases of Zanzibar s modern history The first phase examines the implementation of British colonial control focusing on the conversion of Zanzibar s subsistence farming economy to a cash crop plantation complex This first phase of colonial rule disrupted a variety of indigenous political and social institutions which traditionally promoted peace and stability During subsequent phases of colonial rule the British government devised political economic and educational policies that promoted

elite Arab rule at the expense of the majority Swahili speaking population Colonial authorities rendered illegal any attempts by Swahilis to organize political resistance a rule which exacerbated anti Arab animosity Colonial rule ended in 1964 when Swahili speaking Zanzibaris led a violent revolution against English command and Arab control Having forced a variety of wealthy Arab and Indian communities off the island Swahili revolutionaries allowed a small number of Indian merchants and a few Shirazi farmers to remain Less than twenty years after the revolution in this fifth phase of Zanzibar s political history partisan conflict between the Shirazi and Swahili populations threatens to unleash a new rash of violence The social climate mirrors the first phase of British rule where economic stratification deepens and political tensions grow The analysis offered in this book will find an audience in students scholars journalists and policymakers interested in understanding so called ethnic conflict in Africa
