Harris Feinsod,2017-09-08 The Poetry of the Americas offers a lively and detailed history of relations among poets in the US  
and Latin America spanning three decades from the Good Neighbor diplomacy of World War II through the Cold War cultural  
policies of the late 1960s Connecting works by Mart n Ad n Elizabeth Bishop Paul Blackburn Jorge Luis Borges Julia de  
Burgos Ernesto Cardenal Jorge Carrera Andrade Allen Ginsberg Langston Hughes Jos Lezama Lima Pablo Neruda Charles  
Olson Octavio Paz Heberto Padilla Wallace Stevens Derek Walcott William Carlos Williams and many others Feinsod reveals  
how poets of many nations imagined a poetry of the Americas that linked multiple cultures even as it reflected the inequities  
of the inter American political system This account offers a rich contextual study of the state sponsored institutions and the  
countercultural networks that sustained this poetry from Nelson Rockefeller s Office of the Coordinator for Inter American  
Affairs to the mid 1960s avant garde scene in Mexico City This innovative literary historical project enables new readings of  
such canonical poems as Stevens s Notes Toward a Supreme Fiction and Neruda s The Heights of Macchu Picchu but it  
positions these alongside lesser known poetry translations anthologies literary journals and private correspondences culled  
from library archives across the Americas The Poetry of the Americas thus broadens the horizons of reception and mutual  
influence and of formal historical and political possibility through which we encounter midcentury American poetry recasting  
traditional categories of U S or Latin American literature within a truly hemispheric vision      **Rediscovering Rubén Darío  
through Translation** Carlos F. Grigsby,2024-06-13 A long overdue examination of Rub n Dar o s multilingual work and  
influences alongside the contexts and politics of canonization in world literature Rediscovering Rub n Dar o through  
Translation addresses the peculiar obscurity of Dar o by asking these questions How can one of the most important writers of  
a major world language be almost entirely unknown in the English speaking world How is it that other writers of the same  
language e g Lorca or Garc a M rquez achieve widespread recognition in the anglophone world while he remains unnoticed  
What role does translation play in this What can it tell us about the way in which world literature is articulated Carlos F  
Grigsby approaches Dar o s oeuvre through translation In doing so he explores not only the place of Dar o in the translation  
of Spanish American literature into English but also the place of translation in Dar o s own writing The result is a double  
sided painting as it were the recto is titled Translation in Dar o and the verso Dar o in Translation This book challenges the

field of world literature by revealing some of the biases present in its representation of Spanish American literature It adopts a multilingual framework chiefly using English Spanish French and to a lesser degree Latin and Catalan in analyzing Dar o s writing alongside that of his contemporaries As a result it reveals the multilingualism of Dar o s own writing opening new avenues for the study of his work and of Spanish American modernismo more generally *An Outline History of Spanish American Literature* International Institute of Ibero-American Literature, John Eugene Englekirk, 1980 **Translators on Translation** Kelly Washbourne, 2024-12-13 This is a book in pursuit of translators philosophies or personal theories of translation From Vladimir Nabokov and William Carlos Williams to Ursula K Le Guin and Langston Hughes *Translators on Translation* coaxes each subject s reflections on their art their particular view of translation and how they carry out their specific form of translation The translators intellectual biographies expand our understanding of their views often in their own words on the aesthetic political and philosophical nature of translation lend insight into their translation decision making on specific works afford critical summaries and contextualizations of their key theoretical and theoretico practical works unearth their figurative conceptualizations of translation and construct their subject identities As a person s body of work can be diffuse scattered fragmentary and contradictory inner lives have to be constructed and reconstructed Through a recovery and narrativizing of their writing and speaking on translation their interviews paratextual commentary letters lecture notes and even fiction and poetry these late twentieth century subjects answer the question What is translation to you The book is supported by additional translators profiles and selected translations on the Routledge Translation Studies portal *Translators on Translation* is key reading for courses on translation practice translation history translation theory and creative writing courses that engage in translation while also being vital reading for practicing literary translators
