**Books of Enoch Collection** Scriptural Research Institute,2020-05-01 The five books of Enoch are a collection of books written in Semitic languages and often grouped together as the Book of Enoch or 1st Enoch The books were likely written at different points in time and different Semitic languages The first book was the Book of the Watchers which is generally considered to be the oldest book in the collection however the age of the book is debated The book is now known to have originated long before Christianity since the discovery of the Dead Sea Scrolls however was lost for well over a thousand years to Europeans and assumed to be a Christian era work when the Europeans rediscovered it in Ethiopia The five books of Enoch only survive in Ge ez the classical language of Ethiopia however do not survive intact and some sections of text do not survive The Ge ez texts are believed to be translations from a Greek source which was itself a translation of an Aramaic source Many fragments of the Aramaic texts were discovered among the Dead Sea scrolls as well as Hebrew and Greek fragments The Aramaic texts are mostly the same as the Ge ez texts however scroll 4Q209 also includes a section of text from 3rd Book of Enoch the Astronomical Book which is lost from the Ge ez copies A few fragments of Greek translations have been found in Egypt in the past two centuries which generally match the Ge ez translation A small fragment of a Latin translation was also preserved by the Vatican through the centuries which also matches the Ge ez copies for a small fragment of 4th Book of Enoch Dream Visions

Astronomical Visions shares a lifetime of spiritual visions It is hoped the reader will experience even greater visions that may bring peace tranquility and unity to the universe

*Enoch and Metatron Collection* Scriptural Research Institute,2020-06-11

The five books of Enoch are a collection of books written in Semitic languages and often grouped together as the Book of Enoch or 1st Enoch The books were likely written at different points in time and different Semitic languages The first book was the Book of the Watchers which is generally considered to be the oldest book in the collection however the age of the book is debated The book is now known to have originated long before Christianity since the discovery of the Dead Sea Scrolls however was lost for well over a thousand years to Europeans and assumed to be a Christian era work when the Europeans rediscovered it in Ethiopia The five books of Enoch only survive in Ge ez the classical language of Ethiopia however do not survive intact and some sections of text do not survive Other books attributed to Enoch including the Secrets of Enoch which is also called the 2nd Book of Enoch however is not the same text as the Semitic 2nd Book of Enoch The Secrets of Enoch has only survived in the Old Slavonic language in the Balkan Peninsula and may be a partial paraphrase of the Book of the Watchers Another text attributed to Enoch is the Revelation of Metatron also called the Revelation of Metatron Book of the Palaces Book of Rabbi Ishmael the High Priest or the 3rd Book of Enoch however is not the same text as the Ethiopian 3rd Book of Enoch or any section of the Semitic books of Enoch The Revelation of Metatron is written as a sequel to the first five books of Enoch and is written from the perspective of Enoch in the sky where his angelic name was

Metatron The Revelation of Metatron appears to have been written in Hebrew but includes several Greek and Latin words that have led scholars to assume the text is a Jewish text written in the Christian era The Revelation of Metatron is a medieval Jewish work that claims to have been written in the late 2nd century AD by Rabbi Ishmael the High Priest It is known by various names including the Sepher Hekhalot Book of the Palaces the 3rd Book of Enoch and the Book of Rabbi Ishmael the High Priest although its most common name is the Revelation of Metatron The earliest name for the work was likely the Sepher Hekhalot Book of the Palaces however all copies have been so reworked that it cannot be known for sure It is clear that Rabbi Ishmael did not write it and his name which is in almost every verse was inserted to replace another name that the medieval publisher did not want associated with the book Rabbi Ishmael was the author of the book called Hekhalot Rabbati Greater Palaces sometime between 100 and 130 AD and his name was later used as a pseudonym by many authors of Merkabah literature between 200 and 1000 AD
