Atlantic Rendezvous Neill James, 2014-10-30 A sea going story that involves a fast boat and its crew in a series of shady and dangerous operations around the Cornish coast Ex naval captain Richard Tremayne uses a converted MTB to carry cargo after WW II He soon realises that his vision is flawed and as the costs of running the boat become unmanageable in desperation he turns to smuggling It is the beginning of a steep and dangerous decline as reluctantly Richard finds himself dragged ever deeper into a dark criminal world as he tries to fulfil his dreams *Project Gemini: Technology and Operations* James M. Grimwood, Barton C. Hacker, Peter J. Vorzimmer, 1969 **Atlantic rendezvous '96**, 1996 **The Mobility Forum**, 2010 *The Naval Review*, 1911 *US Navy Armored Cruisers 1890-1933* Brian Lane Herder, 2022-10-27 A new history of the large fast and long ranged armored cruisers of the US Navy and the roles that these warships played in the fleet as America developed into a great naval power At the dawn of the Steel Navy era the rapidly expanding US Navy's fleet of capital ships consisted not only of battleships but also armored cruisers the forerunner of the battlecruiser Armored cruisers sacrificed the battleship's superlative firepower and protection for superior speed and range but as this study shows their role was not always easy to define Controversial because they were as large and expensive as battleships but not able to withstand a battleship in battle contemporary strategists pointed out that naval wars are not won by running away from stronger ships Despite being produced at great expense tactically they never really had a legitimate mission traditional deployments were commerce raiding and protection but despite this author Brian Lane Herder illustrates how successful the use of armored cruisers was for the US Navy After 1906 some replaced US battleships in the Pacific functioning as oversized gunboats most notably the modified armored cruiser Pennsylvania which witnessed the first landing of an airplane on a ship On November 5 1915 North Carolina became the first cruiser to launch an aircraft from a catapult while underway After the

war surviving US armored cruisers represented the US Navy on their Asiatic station until the final cruiser was scuttled in 1946 Using detailed color artwork and photos this fascinating book describes the development and deployment of these controversial but intriguing ships providing examples of the key service they played in the US Navy in a variety of defensive and escorting roles

The Hunters and the Hunted Bryan Perrett,2012-10-24 At the start of World War One the Imperial German Navy had a large number of surface warships deployed around the world These posed a considerable threat to British mercantile interests particularly the import of food and fuel supplies Their elimination was a matter of urgency This book covers the major actions and includes the following The escape of the Goeben and Breslau to Turkey where they became units of the Turkish Navy serving in the Black and Aegean Seas The remarkable cruise of the Emden Detached from the German East Asia Squadron she sank a Russian cruiser a French destroyer 21 merchant ships and destroyed cargo valued at 3 million She was cornered and sunk by the Australian cruiser Sydney while raiding the Cocos Islands The mystery of the Karlsruhe destroyed by an internal explosion The German East Asiatic Squadron consisting of the armored cruisers Schanhorst and Gneisenau and several light cruisers made passage across the Pacific to the west coast of South America where they encountered and sank two British cruisers the Monmouth and Good Hope The Konigsberg operated from Germanys colony of Tanga After sinking a British cruiser she hid in the upper reaches of the Rufiji River After a lengthy naval and air campaign by British forces she was finally destroyed by the indirect fire from two RN Monitors By the middle of 1915 the high seas had been mostly cleared of German surface warships but two armed German ships dominated Lake Tanganyika Two British armed motor boats were shipped to the West African coast from England and made their way by river and overland haulage to the lake a 400 mile journey The result was the destruction of the German lake boats and the invasion of Tanganyika by British forces This operation became the inspiration for CS Foresters novel *The African Queen* and the film that followed
