

Did Atlantis exist?

For many years, since the Classic Greece until our time, people have speculated about the existence of Atlantis: the island-continent inhabited by a very developed civilization that sank in the ocean. Despite the various research and hypothesis, the only description that is known is the one given by the Greek philosopher Plato, who wrote about the city around the year 360 B.C., as a naval power located in front of the "Pillars of Hercules".

9,300 years
of being disappeared
has Atlantis when Plato
described it in his works.

TO BE DISCOVERED

Despite all the efforts of hundreds of expeditions throughout the centuries, the remains of Atlantis or its so-called civilization have never been found. Many researchers would have located it in the Mediterranean, in front of the site of Crete; others, in the middle of the Atlantic or in the Bahamas. The latest studies place it south of the Azores, in front of the coast of Andalusia.

DESTRUCTION & TSUNAMI

An international team of researchers think they have found evidence south of Spain, where currently there is no sea level. The finding was possible due to a combination of factors and it is believed that the city is buried under the sea around the park. According to studies, the civilization could have been destroyed by a tsunami thousands of years ago, and it was restored by sea level. Another possibility of this study, agreed by several researchers, is that the city - a volcano - was not the water in the place where it is.

The city was built by the sea level. The sea level was higher and the city was built on a higher level. The sea level was higher and the city was built on a higher level. The sea level was higher and the city was built on a higher level.

MINOR PALACE
Plato states that it was located in the Acropolis, next to the temple of Athena and Poseidon, surrounded by a kind of fence made of pure gold.

ACCORDING TO PLATO
According to Plato, in the center of the island of Atlantis was the Acropolis, the headquarters of the houses of the most noble people.

SMALLER CITY
While, according to Plato, there were several cities, a smaller city that was founded only 100 years before the destruction.

PLATO
Many critics believe that Plato talked about Atlantis as a metaphor of a utopian government system.

THE MYTH
The "Pillars of Hercules" were located between Gibraltar, in the North, and the African coast, and marked the limit point of the known world for the ancient Mediterranean civilization. Although the Greek talked in the sea, they did not know the Atlantic.
