This Atlas is new in its subject, a subject that has not been touched before. It helps whoever recites the Qur'an or studies it to specify the locations mentioned by the Noble Verses and to mark those places of ancient people mentioned in the Qur'an. This is besides locating areas where the incidents of the prophetic Seerah occurred. Eventually the diligent reader will easily recognize those places, learn about them and take heed of them while reciting. Eventually the diligent reader will easily recognize those places, learn about them and take heed of them while reciting. The Atlas has also revealed obscure places we used to pass through inattentively, like the site where Nuh's Ark settled, the site of the curved Sand hills, Al-Ahqah, the cave of the young faithful men, the houses of Median, the site of Sodom, and other places determined by the Atlas depending on reliable sources. Thus the Atlas eliminates all the guessing and the fantasies we used to encounter when reciting the Noble Quran and takes us to the specific place.
