[The Seven Cosmic Worlds](#) William E. Camilleri, 2012-09 The Seven Cosmic Worlds is a book based on the true cosmology of the spiritual and physical universe from when time was created by the archai arch spirits of the hierarchies of the ultimate spiritual light of the ultimate beings that make up the Almighty God and His identity and how He created mankind and all the heavenly bodies All other cosmologies that have taken away the source of all creation all life are empty in comparison to this description of the face of God Himself It shows in this book that a mind beyond billions of years of thoughts of compassion and love created every molecule in every human being's heart that has learned to love God in the way God loves mankind in every person that seeks God and His love knows this Truth The author has developed a unique channeling process that

speaks directly from a historical personality For example Jesus of Nazareth in the cosmic world light shield where the author speaks through the narration of the book based on King James New Testament Bible Also the author has been able to channel the spirit of the Archangel Michael so much so that the visions through the images of this spiritual being are identical to the angelic personality described in the Bible Hence the author s unique channeling process is presented graphically both spiritual beings speaking to each other describing how God created the cosmos [House documents](#) ,1893 *Weekly World News* ,1990-03-13 Rooted in the creative success of over 30 years of supermarket tabloid publishing the *Weekly World News* has been the world s only reliable news source since 1979 The online hub [www.weeklyworldnews.com](#) is a leading entertainment news site [The Post-Soviet Politics of Utopia](#) Mikhail Suslov,Per-Arne Bodin,2019-09-19 More than 700 utopian novels are published in Russia every year These utopias meaning here fantasy fiction science fiction space operas or alternative history do not set out merely to titillate instead they express very real Russian anxieties be they territorial right sizing loss of imperial status or turning into a colony of the West Contributors to this innovative collection use these narratives to re examine post Soviet Russian political culture and identity Interrogating the intersections of politics ideologies and fantasies chapters draw together the highbrow literary mainstream authors such as Vladimir Sorokin mass literature for entertainment and individuals who bridge the gap between fiction writers and intellectuals or ideologists Aleksandr Prokhanov for example the editor in chief of Russia s far right newspaper *Zavtra* In the process *The Post Soviet Politics of Utopia* sheds crucial light onto a variety of debates including the rise of nationalism right wing populism imperial revanchism the complicated presence of religion in the public sphere the function of language and is important reading for anyone interested in the heightened importance of ideas myths alternative histories and conspiracy theories in Russia today
