Mapping the linkages between agriculture, food security and nutrition in Malawi Aberman, Noora-Lisa,Meerman, Janice,Benson, Todd,2015-12-16 Smallholder agriculture is the mainstay of Malawi s economy Its importance for livelihoods cannot be overstated 94 percent of rural residents and 38 percent of urban residents engage in agriculture to some extent Jones Shrinivas and Bezner Kerr 2014 the vast majority as smallholder farmers with landholdings of less than one hectare Smallholder crops are primarily maize which accounted for nearly 80 percent of smallholder cultivated land in 2011 followed by cassava and other food crops FAO 2008 IFAD 2011 These foods are grown for household consumption and for sale at local and regional markets As such the Malawian food supply especially in rural areas where markets are thin with few buying or selling options is shaped largely by trends in smallholder food crop production

**Agricultural Extension and Training in Malawi** Malawi. Department of Agriculture,1987\* *Progress in African Agriculture* David C. Catt,1970 *Disentangling food security from subsistence agriculture in Malawi* Benson, Todd,2021-05-24 Many rural Malawian households cannot reliably obtain enough food to meet their needs even though most have access to arable land for food production This book calls for three critical changes to promote sustainable food security in Malawi 1 government support for a significantly more diversified and commercially oriented agriculture sector 2 increased agricultural productivity of rural farmers and 3 strengthened food markets

Guide to Agricultural Production in Malawi Malawi. Ministry of Agriculture and Livestock Production,1965 *A critical review of Malawi's Special Crops Act and Agriculture (General Purposes) Act* Comstock, Andrew,Benson, Todd,Nankhuni, Flora,Kanyamuka, Joseph,Nyirenda, Zephania,Nyondo, Christone,2019-01-03 This report is a critical review of two of the principal agricultural laws in Malawi the Special Crops Act and the Agriculture General Purposes Act Both are frequently used to justify interventions by government in agricultural marketing and trade activities The review is to assess whether this legislation is effective in promoting the goals of the country around agricultural commercialization and if not to provide recommendations for revisions to the laws As a secondary task the review considers whether either law could be used as an appropriate legal framework for contract farming regulation and oversight The review was based on a thorough desk review of the legislation and interviews with over 230 key informants involved in agricultural production marketing and trade The interviews focused on the laws and how their application by government has affected the commercial activities of the informants for better or for worse

**Agriculture, food security, and nutrition in Malawi: Leveraging the links** Aberman, Noora-Lisa,Meerman, Janice,Benson, Todd,2018-02-22 Although the Malawian food supply is shaped largely by trends in smallholder food crop production Ma lawi s decades long focus on improving smallholder productivity has only moderately improved food secu rity and nutrition outcomes Country statistics indicate an estimated 36 7 percent of rural Malawian house holds failed to access sufficient calories between 2010 and 2011 During the same period 47 percent of children under the age of five years were esti mated to be stunted in their growth These indicators

imply that some Malawian diets are lacking in terms of quantity total calories consumed and most are lacking in terms of quality sufficient calories derived from nutrient dense foods such as meat fish eggs dairy legumes fruits and vegetables Good nutrition requires both enough total calories quantity and enough vitamins and minerals per calorie quality How can Malawi better leverage its smallholder agriculture sector to improve nutrition This report provides a series of primary and secondary data analyses that examine different aspects of this question *Malawi Agricultural Research Project* Malawi Agricultural Research Project,1984\* **Agriculture and Micro Enterprise in Malawi's Rural South** Alastair Orr,Sheena Orr,Odi. Agricultural Research Extension Network,2002 **Disentangling food security from subsistence agriculture in Malawi: Synopsis** Benson, Todd,2021-05-24 Malawi is a food insecure country and although most households have access to arable land many rural Malawians cannot reliably obtain enough food to meet their dietary needs Rainfed low input subsistence production particularly of the staple crop maize has historically been the primary means of assuring household food security Today most of Malawi's 4 million households continue to grow much of their own food However with increasing regularity several hundred thousand households each year are vulnerable to acute food insecurity Insufficient crop harvests resulting from poor seasonal growing conditions and limited use of inputs coupled with reliance on shrinking landholdings as the population continues to grow and in the context of weak markets in which to sell crops and buy food mean that subsistence farming cannot meet the dietary requirements of all Malawians
