Alien Influences Kristine Kathryn Rusch, 2012-06-01 Disaster has devastated the small band of humans inhabiting Bountiful an ironically named sun scorched planet Six children are found dead murdered inexplicably by the colony's eight surviving children The society has been torn apart by this nightmarish act by its youngest most innocent members One young man trying to bring healing to the shattered children may be able to mend the rift But to do so he may be forced to cross the boundaries of death itself **Becoming Aware of Aliens by learning to recognize them - Vol. 1** Angel

Jeanne, 2016-07-19 The real question is not whether Aliens exist or not They exist Rather we should ask ourselves how they are manipulating us and what we can do in order to defend ourselves These are the thoughts of a writer who has shared her personal experiences in three profound and intense books Each volume is supplemented with illustrations and profiles of the most important alien races and in particular with pictures of real Alien Chips which the author has extracted from her own body It's a book that will blow you away and one that will make you recognize a truth mirrored in your own experience that which you never dared tell anyone In this trilogy the author shares her terrifying experience but also the experiences that filled her with joy It's the beginning of an evolution a howl of rebellion against alien abductions and manipulations a roar in the face of all those who allow this to happen *Deconstructing the Starships* Gwyneth Jones, 1999-04-01 The subject matter of this collection is varied but displays Jones' stance as a practising SF writer and a feminist the writing is characterised by both an incisive engagement with the texts and a refusal to dress that engagement in jargon This very readable book provides insight into the work of one of our most interesting writers and presents strong sometimes even subversive views of a range of modern SF and fantasy **Soviet Affairs Notes**, 1957 **Political Ideas in Modern India** Project of History of Indian Science, Philosophy, and Culture, 2006-03-31 The volumes of the Project on the History of Science Philosophy and Culture in Indian Civilization aim at discovering the main aspects of India's heritage and present them in an interrelated way In *Political Ideas in Modern India* an outstanding group of social and political theorists offers a creative reinterpretation of the ideas and principles that have shaped modern Indian society and state The ideas interpreted or analysed include rights freedoms equality social justice constitutional rule swaraj swadeshi satyagraha class war socialism Hindutva Hind Swaraj syncretic culture composite nationalism and international peace and justice **Principles of Topological Psychology** Kurt Lewin, 2013-04-16 This antiquarian text contains a comprehensive treatise on topological psychology being a detailed exposition of its principles written by Kurt Lewin Written in clear plain language and full of information fundamental to understanding this branch of psychology this text will be of considerable utility to the student and it would make for a great addition to collections of allied literature The chapters of this book include The Present State of Psychology Formulation of Laws and Representations of General Situations Considerations About Representing Life Space Context and Extent of the Psychological Life Space Causal Interconnections in Psychology etcetera We are republishing this vintage book now complete
