Common Shock:

Common Shock Kathy Weingarten, 2003 Drawing on the latest scientific research years of clinical and community experience describes common shock the biological and psychological responses that are triggered when we witness violence and offers tools for action book cover [Macro-Econophysics](#) Hideaki Aoyama, Yoshi Fujiwara, Yuichi Ikeda, Hiroshi Iyetomi, Wataru Souma, Hiroshi Yoshikawa, 2017-07-04 The concepts of statistical physics and big data play an important role in the evidence based analysis and interpretation of macroeconomic principles The techniques of complex networks big data and statistical physics are useful to understand theories of economic systems and the authors have applied these to understand the intricacies of complex macroeconomic problems Recent research work using tools and techniques of big data statistical physics complex networks and statistical science is covered and basic graph algorithms and statistical measures of complex networks are described The application of big data and statistical physics tools to assess price dynamics inflation systemic risks and productivity is discussed Chapter end summary and numerical problems are provided to reinforce understanding of concepts **Pricing in General Insurance** Pietro Parodi, 2014-10-15 Based on the syllabus of the actuarial industry course on general insurance pricing with additional material inspired by the author's own experience as a practitioner and lecturer Pricing in General Insurance presents pricing as a formalised process that starts with collecting information about a particular policyholder or risk and ends with a commercially informed rate The main strength of this approach is that it imposes a reasonably linear narrative on the material and allows the reader to see pricing as a story and go back to the big picture at any time putting things into context Written with both the student and the practicing actuary in mind this pragmatic textbook and professional reference Complements the standard pricing methods with a description of techniques devised for pricing specific products e.g non proportional reinsurance and property insurance Discusses methods applied in personal lines when there is a large amount of data and policyholders can be charged depending on many rating factors Addresses related topics such as how to measure uncertainty incorporate external information model dependency and optimize the insurance structure Provides case studies worked out examples exercises inspired by past exam questions and step by step methods for dealing concretely with specific situations Pricing in General Insurance delivers a practical introduction to all aspects of general insurance pricing covering data preparation frequency analysis severity analysis Monte Carlo simulation for the calculation of aggregate losses burning cost analysis and more [Bearing the Unbearable](#) Deborah van Deusen Hunsinger, 2015-07-08 A Christ centered approach to dealing with trauma on both a personal and a communal level Traumas abound Post traumatic stress disorder emotional and sexual abuse unbearable anxiety and fear and a host of other traumas afflict people everywhere In this book Deborah van Deusen Hunsinger weaves together threads from the fields of psychology and pastoral theology as she explores the impact of trauma on people's lives and offers practical strategies and restorative practices for dealing with it Not only a teacher of pastoral theology but also an experienced pastoral counselor

herself Hunsinger draws on the resources of depth psychology including object relations theory trauma theory family systems theory nonviolent communication and restorative circles She then places her findings in a Christian theological context emphasizing God's work in and through Jesus' passion, death and resurrection to present a cohesive faith based vision for healing

International Macroeconomics Robert C. Feenstra, Alan M. Taylor, 2007-12-20 The international economy has seen much change over recent years and there is much talk in the media of the impact of emerging markets such as India and China Giving a new perspective on International Economics this engaging text addresses economics with a whole world perspective and puts emphasis on empirical study

People's Republic of China-Hong Kong Special Administrative Region International Monetary Fund, 2018-01-22 This Selected Issues paper examines medium term fiscal prospects and policy recommendations for Hong Kong Special Administrative Region SAR Hong Kong SAR's fiscal framework has worked well over the last 20 years but challenges have emerged that will strain the fiscal position in the medium to long term Consequently while fiscal space is ample currently it could become gradually constrained over time The fiscal rule should be implemented flexibly and revenue mobilization needs to be considered down the road On the expenditure side containment will be hard given rapid aging and still high inequality The challenge will be to maintain investment and boost land supply while increasing social spending to guarantee that those who need support are effectively protected
