## **Amnesty International Report 2004:**

**Amnesty International Report 2004** Amnesty International,2004      **Violence and Restraint in Civil War** Jessica A. Stanton,2016-09-26 Media coverage of civil wars often focuses on the most gruesome atrocities and the most extreme conflicts which might lead one to think that all civil wars involve massive violence against civilians In truth many governments and rebel groups exercise restraint in their fighting largely avoiding violence against civilians in compliance with international law Governments and rebel groups make strategic calculations about whether to target civilians by evaluating how domestic and international audiences are likely to respond to violence Restraint is also a deliberate strategic choice governments and rebel groups often avoid targeting civilians and abide by international legal standards to appeal to domestic and international audiences for diplomatic support This book presents a wide range of evidence of the strategic use of violence and restraint using original data on violence against civilians in civil wars from 1989 to 2010 as well as in depth analyses of conflicts in Azerbaijan El Salvador Indonesia Sudan Turkey and Uganda      *The Legal Nature of International Human Rights* Michael K. Addo,2010-05-17 The role and influence human rights in society has been enhanced by its association with international law and yet despite this legal springboard the scope of its legal nature remains uncertain By analysing the work of international human rights courts and treaty bodies alongside a brief historical review this book assesses the distinctive legal dimension of human rights It concludes that the legalisation of human rights is an unplanned and evolving social construct that continues under the managerial oversight of international human rights courts and treaty bodies which employ the primary tool of treaty interpretation These characteristics of the legal environment of human rights in international law provide a good appreciation of the law itself and its limits      **An Audit of Police Oversight in Africa** African Policing Civilian Oversight Forum,2008 African Policing Civilian Oversight Forum      **Justice and Foreign Rule** D. Jacob,2014-10-08 Can foreign rule be morally justified Since the end of the First World War international transitional administrations have replaced dysfunctional states to create the conditions for lasting peace and democracy In response to extreme state failure the author argues this form of foreign rule is not only justified but a requirement of justice

*Non-Governmental Organisations in International Law* Anna-Karin Lindblom,2005 Non governmental organisations NGOs play an increasing political role on the international scene and their position in relation to international law is generally regarded as important but informal Their actual legal status has not been the subject of much investigation This 2006 book examines the legal status of NGOs in different fields of international law with emphasis on human rights law By means of a thorough examination and systematisation of international legal rules and practices the rights obligations locus standi and consultative status of NGOs are explored This study is placed within a wider discussion on the representation of groups in the international legal system Lindblom argues on the basis of a discourse model of international decision making that non governmental organisation is an important form of public participation that can strengthen the flawed legitimacy of the state
