Dressing Renaissance Florence Carole Collier Frick, 2005-08-26 As portraits private diaries and estate inventories make clear elite families of the Italian Renaissance were obsessed with fashion investing as much as forty percent of their fortunes on clothing In fact the most elaborate outfits of the period could cost more than a good sized farm out in the Mugello Yet despite its prominence in both daily life and the economy clothing has been largely overlooked in the rich historiography of Renaissance Italy In *Dressing Renaissance Florence* however Carole Collier Frick provides the first in depth study of the Renaissance fashion industry focusing on Florence a city founded on cloth a city of wool manufacturers finishers and merchants of silk dyers brocade weavers pearl dealers and goldsmiths From the artisans who designed and assembled the outfits to the families who amassed fabulous wardrobes Frick's wide ranging and innovative interdisciplinary history explores the social and political implications of clothing in Renaissance Italy's most style conscious city Frick begins with a detailed account of the industry itself its organization within the guild structure of the city the specialized work done by male and female workers of differing social status the materials used and their sources and the garments and accessories produced She then shows how the driving force behind the growth of the industry was the elite families of Florence who in order to maintain their social standing and family honor made continuous purchases of clothing whether for everyday use or special occasions for their families and households And she concludes with an analysis of the clothes themselves what pieces made up an outfit how outfits differed for men women and children and what colors fabrics and design elements were popular Further and perhaps more basically she asks how we know what we know about Renaissance fashion and looks to both Florence's sumptuary laws which defined what could be worn on the streets and the depiction of contemporary clothing in Florentine art for the answer For Florence's elite appearance and display were intimately bound up with self identity *Dressing Renaissance Florence* enables us to better understand the social and cultural milieu of Renaissance Italy

Dress Code Mari Grinde Arntzen,2015-02-15 As Oscar Wilde once wrote Fashion is a form of ugliness so absolutely unbearable that we have to alter it every six months And yet it serves to make us beautiful or at least make us feel beautiful In this book Mari Grinde Arntzen asks how and why this is how can fashion simultaneously attract us to its glamour and repel us with its superficiality and how being called fashionable can be at once a compliment and an insult Arntzen guides us through the major figures and brands of today s fashion industry showing how they shape us and in turn why we love to be shaped by them She examines both everyday affordable fast fashion brands as well as the luxury market to show how fashion commands a powerful influence on every socioeconomic level of our society Stepping into our closets with us she thinks about what happens when we get dressed why fashion can make us feel powerful beautiful and original at the same time that it forces us into conformity Stripping off the layers of the world s fifth largest industry garment by garment she holds fashion up as a phenomenon business and art exploring the questions it forces us to ask about the body image celebrity and self obsession Ultimately Arntzen asks the most direct question what is fashion How has it taken such a powerful hold on the world forever propelling us toward its concepts of beauty
