

VERY SHORT INTRODUCTIONS

The background of the slide is a landscape painting. The upper portion is a deep, dark blue sky. Below it, a range of hills or mountains is covered in dense foliage that has turned vibrant autumn colors, including bright yellows, oranges, and some hints of red. The foreground shows a dark, textured ground, possibly a path or a field, with some lighter patches that might be rocks or small plants. The overall style is that of a classic landscape painting, with visible brushstrokes and a rich, atmospheric quality.

Classics: A Very Short Introduction Mary Beard, John Henderson, 2000-02-24 We are all Classicists we come into touch with the Classics daily in our culture politics medicine architecture language and literature What are the true roots of these influences however and how do our interpretations of these aspects of the Classics differ from their original reception Starting with a visit to the British Museum John Henderson and Mary Beard prompt us to consider the significance of Classics as a means of discovery and enquiry its value in terms of literature philosophy and culture and its importance as a source of imagery **JACT Review** ,1999 *Educational Times* ,1894 **Pour une "nouvelle" histoire de la littérature**

byzantine Paolo Odorico, Panagiotis A. Agapitos, 2002 **Education Outlook** ,1894 [Making Early Histories in Museums](#) Nick Merriman, 1999 This text examines the debate about interpretation and making history in the context of archaeological museums the reliance of those working on the early periods of the past on the fragmentary information provided by archaeology as well as an imperfect documentary record brings its own interpretative challenges While much has been written in the context of archaeological theory about the partiality and subjectivity of archaeologists interpretations of the past less has been written about the implications of this for the interpretations of archaeology by a non specialist audience in museums As a result the past presented in archaeological museums has tended to follow a traditional and uncritical model

Transactions of the American Philological Association ,2005 *The Uses and Abuses of Antiquity* Michael Denis Biddiss, Maria Wyke, 1999 This multi disciplinary volume brings together essays illustrating the diversity of forms in which the legacy of Antiquity has been used and abused by the Modern West Here classicists and non classicists combine to show how historiography anthropology philosophy political thought archaeology poetry drama the novel music architecture sculpture painting photography and film can be rewardingly juxtaposed as sites rich in the appropriation of Greco Roman culture The book has a chronological span running from the 17th to the late 20th century and it ranges geographically from Britain to Europe and the USA The authors remind us that it is often not the past itself so much as constructed images thereof which do most to mould our cultural consciousness The collection discloses the pluralism and flexibility of Antiquity as an important modern symbolic source and the variety of socio cultural circumstances which have oriented us towards it At many points these essays also analyse signs of a certain desire for release from a tradition viewed as troublesome and constraining Yet they also tend to confirm that whenever we seek to escape classical culture we are still likely to be held within its trammels that even when we think that we have thrown it off we seem fated to remain within its protean thrall **Arion** ,1997
