Classical Horsemanship For Our Time:

Classical Horsemanship for Our Time Jean Froissard, Lily Powell, Lily Powell Froissard, 2002-07 Classical Horsemanship for Our time presents the heritage of classical theories of riding in a modern highly readable format Jean Froissard one of the world's masters of horsemanship takes the reader through the development of a dressage horse dressage in its truest sense the training of a riding horse The emphasis is always on the practical rather than the heavily theoretical a blessing to those readers who have found themselves lost when trying to apply what they have read to their day to day riding The Education of Horse and Rider Jean Froissard, 2005 For the first time in one volume two classic texts on dressage by a master of horsemanship **Dressage in the Fourth Dimension** Sherry Ackerman, 2010-09-07 Dressage is often seen as the most formal and controlled of the equine sports following an ancient standardized training progression For philosopher and dressage instructor Dr Sherry Ackerman dressage is much more It along with riding in general can be a transformational art and an avenue for reflection exploration and self knowledge through which a rider can experience liberation from the individual egoistic self This second revised edition of *Dressage in the Fourth Dimension* is a pioneer work in awakening dressage consciousness Drawing on such diverse sources as sacred geometry ancient Western and Eastern philosophies and esoteric spirituality Ackerman seeks to heal humanity's alienation from nature through riding She points us toward the liberation from societal conditioning and normative thinking and ultimately from our own egos Her concept of the fourth dimension requires us to leave the analytic objective mind behind and enter into the mystery of inspiration A short unique thought provoking work that has enjoyed a word of mouth reputation among horse people for years *Dressage in the Fourth Dimension* will challenge riders assumptions about their horses and themselves Our Time, 1943 Historical Practices in Horsemanship and Equestrian Sports Timothy Dawson, Anastasija Ropa, 2022-11-01 New things are forgotten old things this rediscovery of the past is especially important in horsemanship and equestrian sports Despite advances in sciences and technology the physiologies and psychologies of the two principal agents the equid and the human have undergone relatively few changes since horse domestication The studies collected in this volume outline such essential and recurring challenges in equestrianism as gender issues equine identification the use of hyperflexion and groundwork in training as well as many others from prehistory to this day **Great Horses of Our Time** M.
