Garcia, 2005-11 Congratulations you've run the first 2/3 of life's gauntlet for the working man and you now stand triumphant looking forward to society's reward Retirement Before you take that final step out of the working world you owe it to yourself to reflect on the answers to a few very important questions about what you plan to do with these golden retirement years This book focuses on the contemplation of retirement as opposed to contemplation after retirement Its recommendations can help preserve your post retirement mental health as well as that of your wife and loved ones Unless you die on the job and for many people that is the best way to go you will someday walk or be thrown out of your work If at that time you conclude that you have enough money to retire just how would you go about it Where would you go What would you do What would you say to your wife and loved ones You need to figure it all out before you leave your current profession There are actually only three simple reasons to work You probably know a couple of them but unless you know and have contemplated all three you need to keep working at least until you have finished this book      **Report of the Select**
