The Return of Solar Pons Scholarship In 1928 college student August Derleth wrote to Sir Arthur Conan Doyle asking if any more Sherlock Holmes adventures were going to be published Upon receiving a negative reply Derleth decided to provide some of his own However rather than relating more tales of Holmes and Dr Watson he ended up introducing the world to Solar Pons and Dr Lyndon Parker living in London during the 1920 s and 1930 s Pons solved crimes using deduction and ratiocination often referring to Holmes as The Master or My illustrious predecessor Since his first appearance Pons has been a favorite with Sherlockians Between the 1920 s and the early 1970 s Derleth produced over seventy Pons short stories and novels publishing them through his own imprint Mycroft Moran The Pons stories were beloved within the Sherlockian community so much so that scholarship developed about the character We continue that tradition of Solar Pons scholarship with The Pontine Dossier Millennium edition Read essays on August Derleth and Solar Pons by today s Pontine scholars as they analyze the Sherlock Holmes of Praed Street

The Alternative Sherlock Holmes Peter Ridgway Watt, Joseph Green, 2017-03-02 Between 1887 and 1927 Sir Arthur Conan Doyle wrote sixty Sherlock Holmes stories and his great Canon has become the most praised most studied and best known chapter in the history of detective fiction Over twenty thousand publications pertaining to the Sherlock Holmes phenomenon are known to have been published most of them historical and critical studies In addition however almost since the first stories appeared such was their uniqueness and extraordinary attraction that other authors began writing stories based on or derived from them A new genre had appeared pastiches parodies burlesques and stories that attempted to copy or rival the great detective himself As the field widened there was hardly a year in the twentieth century in which new short stories or novels did not appear Many hundreds are now known to have been published some of them written by authors well known for their work in other literary fields The non canonical Sherlock Holmes literature not only constitutes a literary field of considerable historical interest but includes many stories that are both enjoyable and fascinating in their own right Although a large bibliography on these stories exists and a few limited anthologies have been published no attempt has previously been made to collect them all and discuss them comprehensively The *Alternative Sherlock Holmes* does so it provides a new and valuable approach to the Sherlock Holmes literature as well as making available many works that have for years remained forgotten Presented as an entertaining narrative of interest to both the aficionado and the scholar it provides full bibliographic data on virtually all the known stories in the field

A Holmes by Any Other Name Bill Mason, 2019-01-09 Sherlock Holmes is one of the most recognizable and most parodied names in western literature Bill Mason BSI collects and annotates these parody names from the first one that appeared in 1891 to the present day As Mason says in his introduction One of the great aspects of Sherlock Holmes is the fact that just as the character himself is subject to endless variation so is his name Ellery Queen noted that the name itself is particularly susceptible to the twistings and misshapenings of burlesque minded authors Surely Arthur Conan Doyle who struggled a little with what he was going to call his detective hero could not have known just how perfect the name he finally selected Sherlock Holmes would be for parody for rhyme for the transposing of letters and sounds for the substitution of suggestive words in the name of a comic character Mason's listings are an invaluable resource for the Holmsian scholar researcher or for those interested in whiling away a few hours with a delightful and chuckle inspiring volume
