The Classical Tradition Anthony Grafton, Glenn W. Most, Salvatore Settis, 2010-10-25 Preface List of Articles The Classical Tradition Contributors Ancient Greeks Rosalie F. Baker, 1997-07-31 Outstanding individuals have the whole world as their memorial Pericles The influence of ancient Greek civilization has been felt throughout modern Western history Greek ideas can be found in the laws that govern our lives the buildings in which we live the books we read and the vocabulary we use every day Because these ideas have become so much a part of our daily life we tend to forget that they originated more than 2 500 years ago Ancient Greeks chronicles the lives and accomplishments of Greek figures whose influence continues to be felt today We read about Greeks from all walks of life including one of the greatest physicians who ever lived the father of logic and a brilliant mathematician who once said Give me a lever long enough and a fulcrum strong enough and I will single handedly move the world And move the world he did but with his ideas not a mighty fulcrum In 42 essays authors Rosalie and Charles Baker explore the lives of many personalities from the most famous Greeks to people who are usually overlooked including Aesop author of timeless fables that continue to provide lessons today Lycurgus the legendary ruler of Sparta Plato the great philosopher who established the Academy in Athens Phidippides a courier and long distance runner whose run from Marathon to Athens became the basis of the modern marathon Sappho one of the best female poets of classical antiquity Hippocrates one of the greatest physicians who ever lived Alcibiades a patriot turned traitor who was exiled from Greece Ictinus the architect responsible for the design of the Parthenon Aristotle the father of logic who tutored the teenage Alexander the Great Alexander the Great who ruled Greece defeated the great Persian empire conquered lands bordering the eastern Mediterranean Sea including Egypt and won control of lands stretching into India and all that before his 33rd birthday Zeno founder of the philosophy known as Stoicism The biographies span the years 700 B C to 200 B C from Homer

the master of epic poetry and the author of the Iliad to Eratosthenes a brilliant mathematician who was the first to calculate the earth's circumference A handy fact box that lists birth and death dates and the major accomplishments of each person profiled abundant photographs and specially commissioned maps a timeline a glossary of Greek terms an index of Greeks by profession a pronunciation guide and suggestions for further reading all add to the usefulness of this exceptional reference With figures from fields as diverse as literature mathematics politics the military philosophy and science Ancient Greeks provides a comprehensive examination of the origins of modern civilization

Ancient Greece and Rome Keith Hopwood, 1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament's New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax's relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally

Neoclassical Satire and the Romantic School 1780-1830 Rolf P. Lessenich, 2012 Romanticism was not only heterogeneous and disunited It also had to face the hostile counter movement of the Enlightenment and Augustan Neoclassicism still going strong at the time of and in the decades following the French Revolution due to support from the ruling Establishment the ancien regime of the Crown and Church of England Neoclassicists regarded Romanticism as a heteretical amalgam of dissenting new schools which threatened the monopoly of the Classical Tradition The acrimonious debates in aesthetics and politics were conducted with the traditional strategies of the classical ars disputandi on both sides Under the duress of the heaviest satirical attacks Romanticism began gradually to see itself as one movement giving rise to the problematic opposition of Classical and Romantic The construction of this rough divide however was indispensable for the clarification of different positions in the hubbub of conflicting voices and has also proved critical in literary and cultural studies which cannot do without such subsumptions The Classical Tradition encompassing Christianity emerges as an ongoing event from Greek and Latin antiquity running through to our time

periods and events that defined ancient Greece **The Classical Tradition** Gilbert Highet, 1976 **Greek and Roman Folklore** William Reginald Halliday, 1927 Reception Studies Lorna Hardwick, 2003-05-15 This book introduces the main concepts used in the growing field of reception studies *The Classical World*, 1910 **The Classical Tradition in the Baltic Region** Gregor Vogt-Spira, Arne Jonsson (Hg.), 2018-02 Reception of antiquity in Northern and Northeastern Europe is a field of research that is overall largely undeveloped At the same time the countries surrounding the Baltic Sea have taken part in this transnational discourse for a very long time not least because of the founding of four universities in the Baltic area before 1500 This volume paradigmatically presents forms and profiles of the engagement with antiquity in this region quintessentially for the first time In the richly cultivated Latin classicism there are likewise characteristic features to be discovered such as in translations literary perceptions and adaptations of antiquity as a whole There is an emphasis on the history of education and scholarship including ground breaking studies on classical philology in Riga Latvia and Vilnius Lithuania marked by upheavals in the last century The volume emerged from the network Colloquium Balticum which was established under a German Swedish initiative in the year 2001 *The Greek Commonwealth* Alfred E.
