Dorset Railways:

Dorset Railways Ted Gosling, Mike Clement, 2009-12 A history of Dorset railways *Dorset Railways* Colin G. Maggs, 2009-06 The first railway in Dorset was not a steam operated line but one worked by horses and gravity to transport Portland stone from the quarries to the sea However the first true main line in the county was the Southampton Dorchester which opened on 1 June 1847 followed by the Wilts Somerset Weymouth Railway WSWR which reached Weymouth on 20 January 1857 The Southampton Dorchester Railway had running power over the line between Dorchester and Weymouth and opened to Weymouth in 1857 The Salisbury Yeovil Railway opened to Gillingham in 1859 and to Yeovil and onwards to Exeter in 1860 The Dorset Central Railway was inaugurated between Wimborne and Blandford in November 1860 and northwards to Cole in 1862 where it linked with the Somerset Central Railway the two companies uniting as the Somerset Dorset Railway The extension to Bath opened on 20 July 1874 creating a new main line Dorset Railways Through Time Mike Phipp, 2023-10-15 Explore the fascinating photographic comparison between Dorset's past and present railways through time Great Britain Railways Great Britain. Board of Trade, 1874 **The Railway Magazine**, 1905 **Locomotives and Railways**, 1900 *The Branch Lines of Dorset* Colin Maggs, 2012-01-15 A lavishly illustrated title from acknowledged railway expert Colin G Maggs presenting the story of Dorset's branch lines *Railway Times*, 1865 The Railway Times ..., 1876 **The World's First Railway System** Mark Casson, 2009-09-10 The British railway network was a monument to Victorian private enterprise Its masterpieces of civil engineering were emulated around the world But its performance was controversial praised for promoting a high density of lines it was also criticised for wasteful duplication of routes This is the first history of the British railway system written from a modern economic perspective It uses counterfactual analysis to construct an alternative network to represent the most efficient alternative rail network that could have been constructed given what was known at the time the first time this has been done It reveals how weaknesses in regulation and defects in government policy resulted in enormous inefficiency in the Victorian system that Britain lives with today British railway companies developed into powerful regional monopolies which then contested each other's territories When denied access to existing lines in rival territories they built duplicate lines instead Plans for an integrated national system sponsored by William Gladstone were blocked by Members of Parliament because of a perceived conflict with the local interests they represented Each town wanted more railways than its neighbours and so too many lines were built The costs of these surplus lines led ultimately to higher fares and freight charges which impaired the performance of the economy The book will be the definitive source of reference for those interested in the economic history of the British railway system It makes use of a major new historical source deposited railway plans integrates transport and local history through its regional analysis of the railway system and provides a comprehensive classified bibliography Reports of Cases Decided by the Railway and Canal Commissioners Great Britain.
