Bioethics In Complexity Foundations And Evolutions:

Bioethics in Complexity Sergio De Risio, Franco Orsucci, 2004 This publication reviews the foundations of ethics in the history of Western thinking It connects these philosophical matters with evolutionary theory and contemporary bioethics biology and medicine posing new questions for the current dialectics between categorical and contextual ethics Novel answers are presented from complexity theory self organization and nonlinear dynamics

Primary Care Ethics Deborah Bowman, John Spicer, 2007 Primary Care Ethics offers a diverse range of perspectives on topical issues as well as focusing on familiar dilemmas such as vulnerable patients multidisciplinary team working whistle blowing and resource allocation

European Law and New Health Technologies Mark L Flear, Anne-Maree Farrell, Tamara K Hervey, Thérèse Murphy, 2013-03-14 Health is a matter of fundamental importance in European societies both as a human right in itself and as a factor in a productive workforce and therefore a healthy economy New health technologies promise improved quality of life for patients suffering from a range of diseases and the potential for the prevention of incidence of disease in the future At the same time new health technologies pose significant challenges for governments particularly in relation to ensuring the technologies are safe effective and provide appropriate value for public money To guard against the possible dangers arising from new health technologies and to maximize the benefits all European governments regulate their development marketing and public financing In addition several international institutions operating at European level in particular the European Union the Council of Europe and the European Patent Office have become involved in the regulation of new health technologies They have done so both through traditional command and control legal measures and through other regulatory mechanisms including guidelines soft law steering through redistribution of resources and private or quasi private regulation This collection analyses European law and its relationships with new health technologies It uses interdisciplinary insights particularly from law but also drawing on regulation theory and science and technology studies to shed new light on some of the key defining features of the relationships and especially the roles of risk rights ethics and markets The collection explores the way in which European law's engagement with new health technologies is to be legitimized and discusses the implications for biological or biomedical citizenship

The Foundations of Bioethics Hugo Tristram Engelhardt (Jr.), 1986 The first single author text on the philosophical issues in bioethics this book offers a systematic and comprehensive introduction to the philosophical principles underlying this discipline It examines the ways in which facts theories and values are intertwined in concepts of disease and health and covers a wide range of issues including abortion in vitro fertilization sexual deviance and organ transplantation The discussion of these issues is critical and often controversial and the distinguished author includes his own provocative views on topics of current debate Highly readable and challenging this is an excellent text for advanced bioethics courses as well as a thought provoking study of considerable interest for physicians and philosophers

Medical Law and Ethics Jonathan Herring, 2016 Medical Law and Ethics covers the core legal principles

key cases and statutes that govern medical law alongside the key ethical debates and dilemmas that exist in the field to ensure that the law is firmly placed in context Carefully constructed features highlight these debates drawing out the European angles religious beliefs and feminist perspectives which influence legal regulations Other features such as a shock to the system public opinion and reality check introduce further socio legal aspects and contribute to the lively and engaging manner in which the subject is approached Online Resource Centre This book is accompanied by an Online Resource Centre which includes Bibliography and further reading Links to key cases Author video podcast Web links Links to key sites with information on medical law and ethics

The Voice of Public Theology Ted Peters, 2022-11-07 Public theologians are already thundering like prophets at climate change and racial injustice But the gale force winds of natural science blow through society as well The public theologian should be on storm watch

Medicine and Society, New Perspectives in Continental Philosophy Darian Meacham, 2015-05-22 This volume addresses some of the most prominent questions in contemporary bioethics and philosophy of medicine liberal eugenics enhancement the normal and the pathological the classification of mental illness the relation between genetics disease and the political sphere the experience of illness and disability and the sense of the subject of bioethical inquiry itself All of these issues are addressed from a continental perspective drawing on a rich tradition of inquiry into these questions in the fields of phenomenology philosophical hermeneutics French epistemology critical theory and post structuralism At the same time the contributions engage with the Anglo American debate resulting in a fruitful and constructive conversation that not only shows the depth and breadth of continental perspectives in bioethics and medicine but also opens new avenues of discussion and exploration For decades European philosophers have offered important insights into the relation between the practices of medicine the concept of illness and society more broadly understood These interventions have generally striven to be both historically nuanced and accessible to non experts From Georges Canguilhem s seminal *The Normal and the Pathological* Michel Foucault s lectures on madness sexuality and biopolitics Hans Jonas s deeply thoughtful essays on the right to die life extension and ethics in a technological age Hans Georg Gadamer s lectures on *The Enigma of Health* and more recently Jürgen Habermas s carefully nuanced interventions on the question of liberal eugenics these thinkers have sought to engage the wider public as much as their fellow philosophers on questions of paramount importance to current bioethical and social political debate The essays contained here continue this tradition of engagement and accessibility In the best practices of European philosophy the contributions in this volume aim to engage

with and stimulate a broad spectrum of readers not just experts In doing so the volume offers a showcase of the richness and rigor of continental perspectives on medicine and society
