Theodore R. Johnstone, M.D.,2014-08-30 Boundaries of Evolution describes the unlikelihood of evolutionary theory to explain how it is supposed to scale three major biological cliffs The first cliff is the need for a logical explanation of how random chemical reactions could produce the first living cell from the primordial soup The second is the problem of explaining how the first single celled eukaryote evolved from a prokaryote Mathematical improbabilities of evolutionary theory to scale the first two cliffs in the time available are demonstrated The third insurmountable cliff is the necessity for a reasonable explanation of how millions of different kinds of multi celled eukaryotes could have quickly evolved from single celled eukaryotes Random mutations occurring in DNA accepted or rejected by natural selection are hailed as the source of advancement for the increase in biotic complexity The most common time for mutations to occur in the DNA is during replication Therefore evolutionary advancement should occur faster in biota with the most frequent replication cycles If both evolutionary theory and the fossil record are correct prokaryotes which replicate in as little as 20 minutes took 2 billion years to evolve the first single celled eukaryote Single celled eukaryotes generally having shorter reproductive times than multi celled eukaryotes took another billion years to evolve the first multi celled eukaryote Then during Cambrian times the multi celled eukaryotes with the longest reproductive cycles literally exploded in diversity in a comparatively short time How could this be Other inadequacies of Darwin s theory are presented for everyone to see     **The Vanishing Proofs of Evolution**  
Thomas Heinze,2005-03 Are your children being taught scientific proofs that have already been disproven Much of the world has been convinced to abandon God because of a few classic proofs of evolution in schoolbooks The Vanishing Proofs of Evolution shows how one after another of these very convincing proofs has been found to be untrue Don t just stand and watch while your kids and their teachers are being deceived Give them the knowledge that will build their faith and help them help others It s all explained in this scientifically sound book which clearly shows that true science supports the Creation position and disproves evolution The book presents powerful evidence that God is the Creator and concludes with an introduction to Him Discover how easy it can be to defend the Creation position Recommendation The Vanishing Proofs of Evolution is an excellent source of the positive evidence for creation while describing the scientific evidence against the
