## **Black Legislators:**

African American Legislators in the American States Kerry Lee Haynie, 2001 Has black inclusion in the political process changed political institutions and led to more black influence in the governmental process How do African American legislators balance racial interests with broader issues of government And how is their effectiveness subjectively perceived and objectively evaluated In one of the first book length studies to analyze the behavior of African American state legislators in multiple legislative sessions across five states Kerry Haynie has compiled a wealth of valuable data that reveals the dynamics and effectiveness of black participation in the legislative process Owing to the increasing role of state government in administering what he defines as key black issues education healthcare poverty social welfare civil rights and children s issues Haynie focuses on bills introduced in these categories in Arkansas Illinois Maryland New Jersey and North Carolina The book reveals how responsive political institutions have been to the nation s largest minority group It explores the question of how legislators deal with the duality dilemma which requires them to be both responsible legislators and race representatives and whether agendas should be deracialized in order to appeal to a broader constituency Along with numerous statistical charts illustrating everything from representation on house standing committees to a ranking of the fifteen legislative sessions by quartiles of African American political incorporation a useful and revealing portrait emerges one that will fuel debate and inform future discussions of the role of African Americans in the political process Black Legislators Robert T. Perry, 1976 *Black State Legislators* David A. Bositis, 1992 **Black State Legislators 1972** William L. Day, 1972 **Black Legislators in Louisiana during Reconstruction** Charles Vincent, 2011-01-28 When originally published Charles Vincent s scholarship shed new light on the achievements of black legislators in the state legislatures in post Civil War Louisiana a state where black people were a majority in the state population but a minority in the legislature Now updated with a new preface this volume endures as an important work that illustrates the strength of minorities in state government during Reconstruction It focuses on the achievements of the black representatives and senators in the Louisiana legislature who through tireless fighting were able to push forward many progressive reforms such as universal public education and social programs for the less fortunate Politics in the New South Charles E. Menifield, Stephen D. Shaffer, 2012-02-01 Winner of the 2006 V O Key Award presented by the Southern Political Science Association This authoritative study of contemporary state legislatures in the South provides a fascinating account of how African Americans have achieved noticeable political power since the Voting Rights Act was passed in 1965 A history of racial discrimination and one party Democratic dominance is being supplanted by African American empowerment in a competitive two party system Contributors examine the evolution of the Black Caucus the growing number of African American lawmakers and the rise of black legislators to important leadership positions in the legislatures of each of the southern states Roll call data on key votes from several legislative sessions in Arkansas Florida Georgia Mississippi and Texas are analyzed

**The Louisiana Legislative Black Caucus** Jas M. Sullivan,Jonathan Winburn,2011-12-12 Since the creation of the Louisiana Legislative Black Caucus in 1977 the number of black lawmakers in the Louisiana legislature has increased however many of the socioeconomic indicators show that the condition of their constituents has failed to improve In The Louisiana Legislative Black Caucus Jas M Sullivan and Jonathan Winburn analyze the evolution of the LLBC and raise critical questions as to the effectiveness and limitations of this body of minority legislators Sullivan and Winburn ask why the LLBC composed entirely of Democrats had the lowest bill passage rate among all the groups in the legislature at the same time the Democratic Party held the majority The inability of the LLBC to form coalitions across party lines and even inside its own party limits its effectiveness the authors contend Though LLBC members vote together more often than any other group in the legislature their bills rarely receive support from outside the caucus The issues faced by the LLBC s constituents often fail to garner enough support from white Democrats a group more closely aligned with their Republican colleagues Based on years of research and extensive interviews with caucus members The Louisiana Legislative Black Caucus offers a deft analysis of minority representation in Louisiana that helps explain why four decades after the LLBC was established blacks continue to lag behind whites in key social and economic areas in the Pelican State *Black Faces in the Mirror* Katherine Tate,2018-06-05 Here Katherine Tate examines the significance of race in the U S system of representative democracy for African Americans Presenting important new findings she offers the first empirical study to take up the question of representation from both sides of the constituent representative relationship The first half of the book examines whether black members of the U S House legislate and represent their constituents differently than white members do Representation is broadly conceptualized to include not only legislators roll call voting behavior and bill sponsorship but also the symbolic acts in which they engage The second half looks at the issue of representation from the perspective of ordinary African Americans based on a landmark national survey Tate s findings are mixed But in the main legislators race does shape how they represent their constituents and how constituents evaluate them African Americans view black representatives more positively than they do white representatives even those who belong to their own political party Black legislators however are just as likely as white representatives to sponsor and gain passage of bills in the House Tate also concludes that black House members are more liberal as a group than are their black constituents but that there is considerable divergence in the quality and type of representation they provide The findings reported here will generate controversy in the fields of politics law and race particularly as debate commences over renewing the Voting Rights Act which is set to expire in 2007 **Voting Rights Act** United States. Congress. House. Committee on the Judiciary. Subcommittee on the Constitution,2006 [Living Off the Government?](#) Anne M. Whitesell,2024-11-19 Explores the ways welfare recipients lack adequate political representation Who deserves public assistance from the government This age old question has been revived by policymakers pundits and activists following the massive economic impact of the COVID 19 pandemic Anne Whitesell takes up this timely debate showing us

how our welfare system in its current state fails the people it is designed to serve From debates over stimulus check eligibility to the uncertain future of unemployment benefits Living Off the Government tackles it all Examining welfare rules across eight different states as well as 19 000 state and local interest groups Whitesell shows how we determine who is and who isn't deserving of government assistance She explores racial and gender stereotypes surrounding welfare recipients particularly Black women and mothers how different groups take advantage of these harmful stereotypes to push their own political agendas and how the interests and needs of welfare recipients are inadequately represented as a result Living Off the Government highlights how harmful stereotypes about the race gender and class of welfare recipients filter into our highly polarized political arena to shape public policy Whitesell calls out a system that she believes serves special interests and not the interests of low income Americans

Gaining Voice Christopher J. Clark, 2019-02-25 This book examines the causes and consequences of black representation in state legislatures African Americans have a troubled history when it comes to wielding political power This reality makes it important to consider the factors that increase their presence in state government This book shows that there is more to explaining black representation than the presence of black people instead institutional traits also affect the racial composition of legislatures Surprisingly Clark finds that black political involvement and political attitudes hinge on the proportion of African Americans making up a state legislature as well as the degree to which that proportion reflects the demographic makeup of the state
