Blackfly Season:

Tales of the Seasons Sharr Dee, 2011-01-01 *Tales of the Seasons* is a poetic journey that brings the year's four seasons and more vividly to life through first person storytelling. Each season is portrayed as a unique character with its own voice, personality, and emotional landscape, offering readers an intimate perspective on the rhythm of nature. Spring speaks of renewal and blooming joy, Summer exudes energy and brightness, Autumn reflects on change and nostalgia, and Winter whispers of stillness and quiet beauty. The book also explores lesser-known seasons like Fishing Season and Festival Season, showing how nature's cycles deeply influence human culture and daily life. By personifying the seasons, the stories turn familiar transitions into immersive narratives, encouraging readers to experience nature's changes as heartfelt conversations. Written in a warm, accessible style, *Tales of the Seasons* aims to inspire a deeper appreciation for the natural world, reminding us that the seasons are more than weather—they're living stories shaping life on Earth.

Erratic North

Mark Frutkin, 2008-08-15 In geology, an erratic is a boulder or rock formation transported some distance from its original source, as by a glacier. In award-winning novelist Mark Frutkin's case, his movement from his native Cleveland, Ohio, was instigated by his wish to protest and resist the U.S. military draft during the Vietnam War, and his destination was Canada. An estimated 50,000 to 100,000 American Vietnam War draft resisters sought sanctuary in Canada. Many of these men stayed, became Canadian citizens, and have made significant contributions to the country, including writers such as William Gibson, George Fetherling, Keith Maillard, and Jay Scott; musicians Jesse Winchester and Jim Byrnes; children's performer Eric Nagler; and radio personality Andy Barrie. Although this first nonfiction work by Mark Frutkin looks back at the circumstances and culture of the late 1960s and early 1970s that prompted the author to relocate to Canada, *Erratic North* is about many other things. It's also a lyrical meditation about returning to nature in the bush country of Quebec and an account of the crucible that forged one writer. Tying everything together though is the overarching theme of the book: a contemplation of humanity's embrace of war and violence and the countervailing impulse to resist that embrace, specifically as seen in the experience of Frutkin himself, his grandfather Simon, who escaped Tsarist Russia and its military in the 1890s, and Louis Drouin, the Quebec farmer Frutkin bought his original farm from and who resisted conscription in World War II.

By the Time You Read

This Giles Blunt, 2010-08-27 Book 4 in the John Cardinal series. In this highly anticipated fourth book from the spine-chilling John Cardinal series, Detective Cardinal confronts his most personal case yet. After years of battling depression, his wife Catherine is dead, and despite a suicide note written in her handwriting, Cardinal refuses to believe that she has really killed herself. Hateful notes taunting him about Catherine arrive by mail, and he begins to suspect her death was an act of revenge. Cardinal is forced to work this case alone, and his investigation leads him towards a new and very different kind of criminal: One who is truly untouchable by any legal system.

River of Mountains

Peter Lourie, 2023-11-15 Lourie completed his trip. It took him three weeks and marked the first time anyone has traveled from the source of the Hudson to the mouth in a single

vessel The Hudson proved to be a very changeable river It includes seven locks and nine power dams The northern half is a true river with strong current but the lower half is tidal a sunken river from the days of glaciers In its first 165 miles it drops more than 4 000 feet to Albany The second half falls no more than a foot Lourie s account of his trip is a fresh look at one of America s great and complex waterways one of the few in fact that still contains its historical and biological species of fish It is also the longest inland estuary in the world Henry Hudson called it the great river of the mountains Nowadays too often the Hudson is stereotyped as a ruined polluted industrial river Its glorious past is compared to its present neglect In River of Mountains Peter Lourie combines the Hudson s rich history and descriptions of some of the region s most impressive landscape with the residents of its mill towns the loggers commercial fishermen and barge pilots all of whom are proof that the river is still a thriving vital waterway So come with Peter Lourie on his trip come explore with him from a canoe one of this country s great rivers join him in his wonderful adventure
