Butts Set in the collection of the The Morgan Library these tracings were then coloured in by Blake As a result of this unusual process the outlines of the Linell set are thicker and the colouring is uniformly darker with a more restricted palette than the Butts set Blake also added two new designs to the Linell set and added copies of these to the Butts set The two designs added were No s 17 and 20 The Vision of Christ and Job and His Daughters There is also another set of watercolours known as the New Zealand Set These were initially believed to be from Blake s hand but their authenticity has been all but refuted by scholars such as Martin Butlin and Bo Lindberg 9 They are most likely copies after the engravings by someone in the circle of John Linell as they have no unique features
