Bleeding Optimist:

Bleeding Optimist Mary Burger,1995 Fiction I feel compelled to tell what happened Men make such fools of us their perfidy assumes Debordean proportions and Mary Burger's been there done that with a vengeance The whole world's looking for a scandal and any sordid tale will do This story of suspense but no consequence counterposes a comic love tragedy with the spectacular news of our day the OJ Nicole story the Oklahoma City bombing As a stylist Mary Burger's brilliant and hardbitten like the broken nails of my croupier She's the Dorothy Parker of poetry Kevin Killian **'This is WAR!'** Jennie Gray,2013-08-05 Anthony Cotterell wrote a unique form of war journalism witty sharp engaging and so vivid it was almost cinematic As an official British Army journalist during the Second World War he flew on bombing raids sailed with merchant shipping convoys crossed to France on D Day and took part in the Normandy Campaign During this time he kept a diary a hilarious and caustic record of his role in the war a diary which abruptly ended after he vanished in mysterious circumstances after the battle of Arnhem bridge in 1944 Cotterell's diary and selected war journalism illustrated with previously unpublished photographs are presented together here to shed new light not only on the everyday life of the British Army in the Second World War but also on the role of the press during times of conflict The quality of his writing is truly captivating and his account of the Normandy campaign is surely the nearest that a modern reader will ever get to experiencing what it was like to be in the thick of a Normandy tank battle The Hamelin Plague A. Bertram Chandler,2015-11-26 It began with a few small items in the newspapers dead dogs and cats a mutilated child a series of unexplained fires Then suddenly it exploded into a full sized catastrophe Huge mutants half rat half man began to take over the world stealing children for slaves and destroying their populations Only a few people escaped among them Tim Barrett his wife Jane and a handful of survivors Alone on the high seas in a small ship they set off to find the island where Dr Theodore Piper had been experimenting with a sonic death ray They knew Dr Piper was their only hope for personal and world survival if he was still alive if the King Rats hadn't forced him to serve their evil purpose and if he could find a way to stop the spreading horror of invasion The Intelligent Optimist's Guide to Life Jurriaan Kamp,2014-10-13 The world isn't coming to an end contrary to what you may have heard says Jurriaan Kamp Certainly there's upheaval and economic political and social instability but the media's near exclusive focus on conflict and disaster means that the progress and everyday acts of brilliance taking place across the globe go unnoticed which contributes to the sense that apocalypse is at hand And pessimism can be fatal Kamp cites research showing that those who indulge in negative thinking are more likely to smoke be overweight and have high blood pressure high cholesterol and an increased risk of Parkinson's disease than optimists Meanwhile evidence abounds that optimism intelligent optimism not a rose colored glasses brand of wishful thinking is good not only for your mind but for your body too Kamp demonstrates that on the whole we're living longer becoming smarter working less and growing richer Democracy is on the rise and violence is declining He explains how we can cultivate an

outlook of informed optimism that will make our lives and the world better because as he quotes Helen Keller No pessimist ever discovered the secret of the stars or sailed to an uncharted land or opened a new doorway for the human spirit
