Corporate Downsizing Demystified Franco Gandolfi, 2006 Due to the increased levels of organizational efficiency profitability and competitiveness have produced major layoffs and redundancies corporate downsizing has now become a strategy of choice for many corporations and governmental agencies It is now *Black Enterprise*, 1987-03 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance The New Economy and Economic Growth in Europe and the US David B. Audretsch, Paul J.J. Welfens, 2002-04-10 There are many issues relating to the new economy in Europe and the USA that are unexplored Here the authors present innovative theoretical and empirical analysis on Internet dynamics productivity growth and organizational changes in selected OECD countries New empirical findings related to telecommunications Internet and growth also are presented Based on the theoretical and empirical analyses various policy options are developed Policy measures both at the regional and national levels can stimulate structural change knowledge diffusion and economic growth Different governance strategies for the Internet and e commerce are identified from a global perspective **Capitalism and Democracy in the 21st Century** Dennis C. Mueller, Uwe Cantner, 2013-03-09 Joseph Schumpeter oscillated in his view about the type of economic system that was most conducive to growth In his 1911 treatise Schumpeter argued that a more decentralized and turbulent industry structure where the process of creative destruction was triggered by vigorous entrepreneurial activity was the engine of economic growth But by 1942 Schumpeter had modified his theory arguing instead that a more centralized and stable industry structure was more conducive to growth According to Schumpeter 1942 p 132 under the managed economy there was little room for entrepreneurship because Innovation itself is being reduced to routine Technological progress is increasingly becoming the business of teams of trained specialists who turn out what is required to make it work in predictable ways p 132 Schumpeter 1942 reversed his earlier view by arguing that the integration of knowledge creation and appropriation bestowed an inherent innovative advantage upon giant corporations Since capitalist enterprise by its very achievements tends to automatize progress we conclude that it tends to make itself superfluous to break to pieces under the pressure of its own success *Knowledge Management and its Integrative Elements* Jay Liebowitz, Lyle C. Wilcox, 1997-05-21 Knowledge In the realm of knowledge management information plus wisdom equals knowledge

Organizations have found that the knowledge they contain can be one of their most important competitive weapons
Definition Knowledge management The ability of an organization to manage store value and distribute knowledge Some organizations have created the position of Chief Knowledge Manager CKM to handle knowledge management responsibilities Many organizations fail to effectively manage and use the most important competitive edge they possess their knowledge and intellectual capital This book covers the entire growing field of knowledge management with particular emphasis on knowledge based systems and their use in preserving knowledge in an organization and integrating it across departments and disciplines This hands on guide shows how businesses and other organizations can re engineer their processes using an applied knowledge based approach Each chapter introduces a different aspect of the field and demonstrates its application in actual case studies Examples from industry education and government show the wide application of this exciting new field of study The book also covers promising trends such as learning organizations intelligent organizations and enterprise management

Globalization, Economic Growth and Innovation Dynamics Paul J.J. Welfens,John T. Addison,David B. Audretsch,Thomas Gries,Hariolf Grupp,1999-10-19 In the new global economy more countries have opened up to international competition and rapid capital flows However in the triad the process of globalization is rather asymmetric With a rising role of multinational companies there are favorable prospects for higher global growth and economic catching up respectively Theoretical analysis suggests key ingredients of sustained growth but there is also a new concept of a long term equilibrium income gap in which convergence is rather unlikely The analysis also picks up European and US labor market issues in the context of economic globalization and raises the question of which EU policies in the field of labor market reform and of innovation policies are adequate
