**Blade Runner 2049 and Philosophy** Robin Bunce, Trip McCrossin, 2019-08-20 Blade Runner 2049 is a 2017 sequel to the 1982 movie Blade Runner about a world in which some human looking replicants have become dangerous so that other human looking replicants as well as humans have the job of hunting down the dangerous models and retiring destroying them Both films have been widely hailed as among the greatest science fiction movies of all time and Ridley Scott director of the original Blade Runner has announced that there will be a third Blade Runner movie Blade Runner 2049 and Philosophy is a collection of entertaining articles on both Blade Runner movies and on the spin off short films and Blade Runner novels by twenty philosophers representing diverse backgrounds and philosophical perspectives Among the issues addressed in the book What does Blade Runner 2049 tell us about the interactions of state power and corporate power Can machines ever become truly conscious or will they always lack some essential human qualities The most popular theory of personhood says that a person is defined by their memories so what happens when memories can be manufactured and inserted at will We already interact with non human decision makers via the Internet When embodied AI becomes reality how can we know what is human and what is simulation Does it matter Do AI endowed human looking replicants have civil and political rights or can they be destroyed whenever real humans decide they are inconvenient The blade runner Deckard Harrison Ford appears in both movies and is generally assumed to be human but some claim he may be a replicant What s the evidence on both sides Is Niander Wallace the mad scientist cum evil corporate CEO in Blade Runner 2049 himself a replicant What motivates him What are the impacts of decision making AI entities on the world of business Both Blade Runner and Blade Runner 2049 have been praised for their hauntingly beautiful depictions of a bleak future but the two futures are very different and the 2019 future imagined in the original Blade Runner is considerably different from the actual world of 2019 How have our expectations and visions of the future changed between the two movies The dream maker character Ana Stelline in Blade Runner 2049 has a small but pivotal role What are the implications of a person whose dedicated mission and task is to invent and install false memories What are the social and psychological implications of human AI sexual relations *The Blade Runner Experience* Will Brooker, 2005 This text examines Ridley Scott s Blade Runner in context of adaptation both from the original novel but also as graphic novel computer game and series of books It also looks at the identities of the characters particularly with reference to influences and realities **Blade Runner** Scott Bukatman, 2017-10-26 Ridley Scott s dystopian classic Blade Runner an adaptation of Philip K Dick s novel Do Androids Dream of Electric Sheep combines noir with science fiction to create a groundbreaking cyberpunk vision of urban life in the twenty first century With replicants on the run the rain drenched Los Angeles which Blade Runner imagines is a city of oppression and enclosure but a city in which transgression and disorder can always erupt Graced by stunning sets lighting effects costumes and photography Blade Runner succeeds brilliantly in depicting a world at once uncannily familiar and startlingly new In his innovative and nuanced

reading Scott Bukatman details the making of Blade Runner and its steadily improving fortunes following its release in 1982. He situates the film in terms of debates about postmodernism which have informed much of the criticism devoted to it but argues that its tensions derive also from the quintessentially twentieth century modernist experience of the city as a space both imprisoning and liberating. In his foreword to this special edition published to celebrate the 20th anniversary of the BFI Film Classics series Bukatman suggests that Blade Runner's visual complexity allows it to translate successfully to the world of high definition and on demand home cinema. He looks back to the science fiction tradition of the early 1980s and on to the key changes in the final version of the film in 2007 which risk diminishing the sense of instability created in the original.

**Blade Runner** Philip K. Dick, 1982. Captures the strange world of twenty first century Earth a devastated planet in which sophisticated androids banned from the planet fight back against their potential destroyers while bounty hunter Rick

Deckard sets out to track down the replicants. Reissue Tie in to the Fall 2007 release of the deluxe twenty fifth anniversary DVD of the Warner Bros film directed by Ridley Scott starring Harrison Ford Rutger Hauer Sean Young and others. Science Fiction

Retrofitting Blade Runner Judith Kerman, 1991. This book of essays looks at the multitude of texts and influences which converge in Ridley Scott's film Blade Runner especially the film's relationship to its source novel Philip K Dick's Do

Androids Dream of Electric Sheep. The film's implications as a thought experiment provide a starting point for important thinking about the moral issues implicit in a hypertechnological society. Yet its importance in the history of science fiction and science fiction film rests equally on its mythically and psychologically resonant creation of compelling characters and an

exciting story within a credible science fiction setting. These essays consider political moral and technological issues raised by the film as well as literary filmic technical and aesthetic questions. Contributors discuss the film's psychological and

mythic patterns important political issues and the roots of the film in Paradise Lost Frankenstein detective fiction and previous science fiction cinema.

Postmodern Metanarratives Décio Torres Cruz, 2014-07-29. Postmodern Metanarratives investigates the relationship between cinema and literature by analyzing the film Blade Runner as a postmodern work that constitutes a landmark of cyberpunk narrative and establishes a link between tradition and the post modern.

**Future Noir: The Making of Blade Runner** Paul M. Sammon, 1996-05-01. The 1992 release of the Director's Cut only confirmed what the international film cognoscenti have known all along. Ridley Scott's Blade Runner based on Philip K Dick's brilliant and troubling SF novel Do Androids Dream of Electric Sheep still rules as the most visually dense thematically challenging and

influential SF film ever made. Future Noir is the story of that triumph. The making of Blade Runner was a seven year odyssey that would test the stamina and the imagination of writers producers special effects wizards and the most innovative art

directors and set designers in the industry. A fascinating look at the ever shifting interface between commerce and the art that is modern Hollywood. Future Noir is the intense intimate anything but glamorous inside account of how the work of SF's

most uncompromising author was transformed into a critical sensation a commercial success and a cult classic.

**Runner 2** K. W. Jeter, 1996 The first sequel to the major movie spectacular Blade Runner The Edge of Human has been commissioned by Orion and authorised by the Philip K Dick Trust and The Blade Runner Partnership It is written by a writer who worked alongside Dick in the years prior to his tragically early death It answers a lot of the questions left hanging by the movie and yet remains true to the spirit of the original Philip K Dick story Do Androids Dream of Electric Sheep Rick Deckard is living with his replicant lover Rachael in the rural backwoods of North America They eke out their remaining days together with Rachael spending most of the time in cryogenic suspension Out of the blue Deckard is snatched away and dumped back in LA with more questions than answers Why is he on a murder rap Who is the sixth replicant and is Sarah Tyrell Rachael's double to be trusted

**Studying Blade Runner** Sean Redmond, 2008 Ridley Scott's Blade Runner is now widely recognised as a masterwork of science fiction cinema and one of the most influential of any films released in the last twenty five years In Studying Blade Runner Sean Redmond uses the key concepts of media and film studies film language representation institutions and audiences to explore the significance of the film its breakthrough use of special effects as a narrative tool the film's revolutionary representation of the future city its treatment of racial and sexual politics its unique status as a text whose meaning was fundamentally altered in its rereleased Director's Cut form and what this means in an institutional context

**Blade Runner** Matt Hills, 2011-12-13 More than just a box office flop that resurrected itself in the midnight movie circuit Blade Runner 1982 achieved extraordinary cult status through video laserdisc and a five disc DVD collector's set Blade Runner has become a network of variant texts and fan speculations a franchise created around just one film Some have dubbed the movie classroom cult for its participation in academic debates while others have termed it meta cult in line with the work of Umberto Eco The film has also been called design cult thanks to Ridley Scott's brilliant creation of a Los Angeles in 2019 the graphics and props of which have been recreated by devoted fans Blade Runner tests the limits of this authenticity and artificiality challenging the reader to differentiate between classic and flop margin and mainstream true cult and its replicants

Blade Runner Amy Coplan, David Davies, 2015-05-08 Ridley Scott's Blade Runner is widely regarded as a masterpiece of modern cinema and is regularly ranked as one of the great films of all time Set in a dystopian future where the line between human beings and replicants is blurred the film raises a host of philosophical questions about what it is to be human the possibility of moral agency and freedom in created life forms and the capacity of cinema to make a genuine contribution to our engagement with these kinds of questions This volume of specially commissioned chapters systematically explores and addresses these issues from a philosophical point of view Beginning with a helpful introduction the seven chapters examine the following questions How is the theme of death explored in Blade Runner and with what implications for our understanding of the human condition What can we learn about the relationship between emotion and reason from the depiction of the replicants in Blade Runner How are memory empathy and moral agency related in Blade Runner How does the style and mood of Blade Runner bear upon its thematic and philosophical significance Is Blade Runner

The third focuses on general thematic issues raised in Scott's work such as gender construction, political issues and geographical locations. Finally the encyclopedia incorporates entries on films by other directors who have influenced Scott's approach to his work as a director or producer. Each entry is followed by a bibliography of published sources both in print and online making this the most comprehensive reference on Scott's body of work.

**Blade Runner** William S. Burroughs, 1979 In this futuristic screenplay vision of a strife and disease plagued America in 1999 Burroughs finds the cure for a decaying civilization in the medicine practiced by underground physicians and surgeons. These heroic healers in turn are aided by blade runners, teenagers who smuggle banned surgical instruments past the watchful eyes of fascistic police. The novel cum screenplay follows one of these runners during the course of a race riot and the transfer of instruments between embattled doctors. Above the drama in the streets of New York is a world taken over by hang glider and autogyro gangs, mountaineers and steeplejacks. A sky boy steps off his penthouse into a parachute on guide wires that drop him to a street level landing. Meanwhile released animals and reptiles from the zoo and freed fish from the aquarium have control of the rovers and subways. The prose flashes with Burroughs' own brand of outrageousness and fantasy.

As soon as filming is over he is going straight back to Mars where he has been living incognito with Sarah Tyrell. But before corporation loyalists determined to resurrect the vanquished company
