Coping With Discrimination And Prejudice:

Coping with Discrimination and Prejudice Mary Bowman-Kruhm, Claudine G. Wirths, 1998 Examines the causes and effects of prejudice and discrimination and discusses how to confront and cope with them Understanding Barriers to Workplace Equality: A Focus on the Target's Perspective Michelle K. Ryan, Christopher T. Begeny, Renata Bongiorno, Teri Kirby, Thekla Morgenroth, 2020-08-07 *The Fulfilling Workplace* Ronald J. Burke, 2016-03-09 It is very easy for organizations to ignore or overlook the impact of social and commercial change of increased pressure to deliver profit above all else and of transformation in the ways in which we are now working on the mental health and consequently the performance of their employees And yet there is plenty of evidence that in many workplaces performance is down stress is up and professional employees are struggling to balance their home and work lives This collection while looking at individuals places the spotlight on organizational initiatives to support the development of attitudes values character and behaviors in employees The aim of these initiatives is to increase our resilience to those experiences and events which impact on performance There is a particular focus on managerial and professional jobs where employee discretion and commitment are critical The Fulfilling Workplace extends the themes developed in early titles in the Psychological and Behavioral Aspects of Risk Series deeper into organizations to explore the organization's role in coming to grips both with human frailties and toxic workplaces both destructive to individual and organizational health The Impact of Immigration on Children's Development Cynthia T. García Coll, 2012 Explores the impact of immigration in a global context All over the world families migrate and with them so do their children Probing the question of what being an immigrant means this publication brings together theory and empirical findings to highlight the impact of immigration on child development in a global context Discussed is the impact of these processes on children and adolescents in a variety of different countries and social contexts to determine both universal and culturally specific aspects of the experience of immigration as it becomes a pervasive reality of the modern world This publication is appropriate for anyone who is interested in the process of migration immigration and how it affects human development Both students and scholars as well as real world practitioners and policy makers in education psychology sociology anthropology ethnic and cultural studies immigration studies government and public policy will find this book a valuable source of information about the present and the way in which the next generation develops in response to the immigrant experience **Handbook of Psychology: Personality and social psychology** Irving B.
