Peñaloza, Carmen Elisa, Viviescas Monsalve, Víctor, 2020-04-24 Al cierre de la segunda década del siglo XXI que es el tiempo en el que se realizan las investigaciones que dan origen a los artículos publicados en este libro el contexto político y social de Colombia vuelve a estar determinado por la persistencia del conflicto social y armado que ahora parece recrudecerse Este contexto exige interrogarse sobre la viabilidad la pertinencia y la vigencia de las ciencias humanas y sociales y llevar la atención del lector y la comunidad académica al territorio como espacio cultural en el que se configura el habitar y el convivir en colectividad y a las fronteras culturales como límites móviles que dan cuenta de este proceso de configuración Los artículos presentados en este libro constituyen caminos que bordean o llevan a la problemática de lo regional en la escritura y la historiografía literaria

**Seis propuestas didácticas** Gloria Rodríguez Barreneche, 2014-05-09 A nadie asombra que se intente propiciar experiencias de lectura y escritura significativas por su potencial de comunicación y pensamiento pues lo importante es abrir canales de contacto entre las voces de otros y la propia Pero no es fácil lograrlo para ello se necesitan maestros que sepan mediar entre sujetos textos y contextos propiciando verdaderos diálogos He ahí la razón de revisar la formación de maestros e insistir en orientarla hacia la producción autónoma de respuestas y no la repetición de fórmulas ajenas Por todo esto cabe afirmar que las preocupaciones centrales en este libro tienen que ver con la lengua escrita la formación de maestros y la investigación didáctica En torno a ellas se configuran seis propuestas de enseñanza diseñadas experimentadas revisadas discutidas y mejoradas por grupos de maestros de colegios públicos de la ciudad de Cali quienes desarrollaron este proyecto con el apoyo y la colaboración de asesores externos Las propuestas se registran como planificaciones de clases para el tramo que va desde pre escolar hasta el grado octavo de la escolaridad básica Cada una piensa y transforma en alguna medida la acción en el aula con ello sus autores se libran tanto de las rutinas automatizadas como de las urgencias diarias generadoras de reacciones inmediatas carentes de meditación y solitarias ambos extremos enemigos de la sensatez y la sensibilidad

**Colombia, Land of Flowers** Benjamín Villegas Jiménez, 1990 Of all the lands in the world Colombia is the richest in flowers When the first astronauts sped through the heavens and beheld the Earth two landmarks stood out the Great wall of China and the unique green mantle that covers Colombia In fact this hugely fertile land houses over 50 000 species of flowers out of a total of 250 000 throughout the world The daily use of flowers and of their eloquent language permeates the Colombians everyday life and their very death it reaches all points even in the endearing simplicity of a small garden It is not surprising then that also in the sphere of economics flowers should have come to play an important role Three decades ago a small group of visionary entrepreneurs realized that the Bogota Savannah and certain regions of Antioquia were ideal sites for intensive floriculture and they put that idea to work At present Colombia is one of the world's leader flower producing countries and one of the main exporters to the United States Ninety percent of Colombia's entire flower production is for exportation The quality of its

products its rigorous at meeting schedules and the competitiveness of its prices have helped the Colombian flower industry to maintain its privileged position in international markets competing and successfully against countries such as Holland and Japan The flower industry has also helped to strengthen the Colombian economy in rural areas by maintaining a stable working population thus helping to avoid migration to the cities
