A Dialogue:

A Dialogue Between a Philosopher and a Student of the Common Laws of England Thomas Hobbes,1997-05 This little known late writing of Hobbes reveals an unexplored dimension of his famous doctrine of sovereignty The essay was first published posthumously in 1681 and from 1840 to 1971 only a generally unreliable edition has been in print This edition provides the first dependable and easily accessible text of Hobbes s Dialogue In the Dialogue Hobbes sets forth his mature reflections of the relation between reason and law reflections more liberal than those found in Leviathan and his other well known writings Hobbes proposes a separation of the functions of government in the interest of common sense and humaneness without visibly violating his dictum that the sharing or division of sovereignty is an absurdity This new edition of the Dialogue is a significant contribution to our understanding of seventeenth century political philosophy Hobbes students are indebted to Professor Cropsey for this scholarly and accessible edition of Dialogue J Roland Pennock American Political Science Review An invaluable aid to the study of Hobbes Review of Metaphysics [A dialogue between a christian an a Hindu about religion](#) David N. Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity
