A Duet:

The Making Academic Narelle Lemon, Sharon McDonough, Mark Selkrig, 2025-10-17 By showcasing the experiences of making academics this book advocates for higher education professionals to integrate creative practices into their lives recognising the potential to facilitate personal growth self discovery and alternative ways of knowing Higher education contexts can be demanding challenging and rewarding and this book shares the practices of scholars who intertwine their intellectual pursuits with hands on creative activities to support both their scholarly work and their wellbeing Presenting visual narratives and describing their experiences the authors inspire readers to consider how creative expression can support fulfilment meaning purpose and wellbeing in academic work and life The chapters focus on the arts making creating and creativity highlighting the crucial role these making practices play in the embodiment of knowing and exploring the self Ultimately this book contributes to a broader conversation about the importance of valuing and nurturing various forms of creativity within the higher education sector as a means of promoting wellbeing self care and a more holistic approach to scholarship This is an essential read for individuals working in higher education at various career stages as well as higher degree research students

Duetting and Turn-Taking Patterns of Singing Mammals: From Genes to Vocal Plasticity, and Beyond Patrice Adret, Dena Jane Clink, Charles T. Snowdon, Sofya Dolotovskaya, 2023-10-23 Mammalian vocal duets and turn taking exchanges long coordinated acoustic signals exchanged between two individuals are primarily found in family living pair bonded mammals with a socially monogamous lifestyle some rodents some lemurs tarsiers titi monkeys a Mentawai langur gibbons and siamangs Duetting and turn taking patterns combine visual chemical tactile and auditory cues to produce some of the most exuberant displays in the realm of animal communication How and why such phenotypes evolved independently across main lineages are fundamental questions at the core of the nature nurture debate Duetting styles ranging from antiphonal non overlapping to simultaneous overlapping emissions have now been documented in various taxa some of which are quite reminiscent of turn taking rules in human conversation Nonetheless much remains to be learned about this complex motor skill and at all four levels of analysis namely 1 developmental processes 2 causal mechanisms 3 functional properties and 4 evolutionary history Given the strong link between this form of coordinated singing and pair bonding gaining a deeper understanding of this kind of cooperative behavior will likely shed more light on the deep evolutionary roots of human culture language and music

Fitness Costs and Benefits of Female Song Michelle L. Hall, Naomi E. Langmore, 2017-09-11 Bird song traditionally regarded as primarily a male trait is in fact widespread among female songbirds and was probably present in the ancestor of modern songbirds Odom et al 2014 Nature Communications These recent findings challenge the view that sexual dimorphism in the expression and complexity of song is largely the outcome of sexual selection on males It is now clear that understanding the evolution of bird song requires explaining variation within and among species in the expression and complexity of female song To do this we need a better

understanding of the nature of variation in female song in different contexts and systems as well as the fitness costs and benefits of variation in the expression and complexity of female song This Research Topic draws together current research on female song with the goal of understanding the fitness costs and benefits of the diversity of female singing behaviour apparent among songbirds It includes articles ranging from single species studies investigating how female song varies with context and contrasts with male song to comparative analyses exploring relationships between female song and ecological social and other factors as well as opinion pieces
