*Gildas's De Excidio Britonum and the Early British Church* Dr. Karen George, 2009 A study of a contemporary witness to the transformation of post Roman Britain into Anglo Saxon England Gildas s De excidio Britonum is a rare surviving contemporary source for the period which saw the beginning of the transformation of post Roman Britain into Anglo Saxon England However although the De excidio has received much scholarly attention over the last forty years the value of the text as a primary source for this fascinating if

obscure period of British history has been limited by our lack of knowledge concerning its historical and cultural context In this new study the author challenges the assumption that the British Church was isolated from its Continental counterpart by Germanic settlement in Britain and seeks to establish a theological context for the De excidio within the framework of doctrinal controversy in the early Continental Church The vexed question of the place of Pelagianism in the early British Church is re investigated and a case is put forward for a radical new interpretation of Gildas s own theological stance In addition this study presents a detailed investigation of the literary structure of the De excidio and Gildas s use of verbal patterns and argues that his use of the Bible as a literary model is at least as significant as his well documented use of the literary techniques of Classical Latin Dr KAREN GEORGE is currently a tutor at the Cambridge Institute of Continuing Education Encounter Stephen Spender, Irving Kristol, 1981-07 **The Historian** ,2005 *Leaflet* ,1927 **Journal of Roman Archaeology** ,2004 *A History of the Ancient World: Rome, tr. by J.D. Fleming, Richard Hingley, 2007 As the essays in this book demonstrate Prehistoric and Romano British landscape studies have come a long way since Hoskins whose work reflected the prevailing Celtic ethnological narrative of Britain before the medieval period The contributors present a stimulating survey of the subject as it is in the early twenty first century and provide some sense of a research frontier where new conceptualisations of otherness and new research techniques are transforming our understanding *Romano-British Tombstones Between the 1st and 3rd Centuries AD* Geoffrey William Adams, Rebecca Tobler, 2007 For one of the most isolated provinces in the Roman Empire the archaeology of Roman Britain has been one of the most researched areas However the coverage is not complete and this study focuses on one of the neglected areas what the tombstones of Roman Britain reveal about epigraphy gender and familial relations throughout the 1st and 3rd centuries AD Much of this study refers to the Romanisation of Britain during this period of time Chapter 1 looks at the social significance of tombstones and burial customs Chapter 2 contains the analysis by categorization of gender and age Chapter 3 details the dedicators of Romano British tombstones Chapter 4 discusses the epigraphic and artistic significance of the tombstones Chapter 5 details the materials and dimensions There are six data Appendices presenting the chronological analyses and separate studies of civilian and military tombstones
