The Old Testament Student William Rainey Harper, 1885 Vol 8 includes New Testament supplement Book of the Sacred Magic of Abra-Melin the Mage Edmund Kelly, 2019-09-25 THE Book of the Sacred Magic of Abra melin the Mage originally published in 1900 translated by Samuel Liddell MacGregor Mathers from a 15th century French document was purportedly written by Abraham for his son Lamech Within this volume are three books The first book is Abraham s autobiography in which he speaks to his son The second book Is an explanation of the purification rituals necessary to bring the magician s personal demon under his control And the third book details what feats can be accomplished once the practitioner is able to use a form of magic controlled and directed through sigils of magic words written on a grid Anyone with an interest in the occult will find this an interesting though perhaps impractical guide for exploring mystic arts This is a must have in any collection of occult literature *Sacred Magic Of Abramelin The Mage* S. L. MacGregor Mathers, 2021-06-24 The particular scheme or system of Magic advocated in the present work is to an extent sui generis but to an extent only It is rather the manner of its application which makes it unique In Magic that is to say the Science of the Control of the Secret Forces of Nature there have always been two great schools the one great in Good the other in Evil the former the Magic of Light the latter that of Darkness the former usually depending on the knowledge and invocation of the Angelic natures the latter on the method of evocation of the Demonic races Usually the former is termed White Magic as opposed to the latter or Black Magic The invocation of Angelic Forces then is an idea common in works of Magic as also are the Ceremonies of Pact with and submission to the Evil Spirits The system however taught in the present work is based on the following conception That the Good Spirits and Angelic Powers of Light are superior in Power to the Fallen Spirits of Darkness That these latter as a punishment have been condemned to the service of the Initiates of the Magic of Light This Idea is to be found also in the K ran or as it is frequently and perhaps more correctly written Q r an As a consequence of this doctrine all ordinary material effects and phenomena are produced by the labour of the Evil Spirits under the command usually of the Good That consequently whenever the Evil Demons can escape from the control of the Good there is no evil that they will not work by way of vengeance That therefore sooner than obey man they will try to make him their servant by inducing him to conclude Pacts and Agreements with them That to further this project they will use every means that offers to obsess him That in order to become an Adept therefore and dominate them the greatest possible firmness of will purity of

soul and intent and power of self control is necessary That this is only to be attained by self abnegation on every plane That man therefore is the middle nature and natural controller of the middle nature between the Angels and the Demons and that therefore to each man is attached naturally both a Guardian Angel and a Malevolent Demon and also certain Spirits that may become Familiars so that with him it rests to give the victory unto the which he will That therefore in order to control and make service of the Lower and Evil the knowledge of the Higher and Good is requisite **The Book of the Sacred Magic** Abramelin the Mage, 2020-09-28 Owing perhaps to the circumstance that the indispensable B decker accords only a three or four line notice to the Biblioth que de l Arsenal but few English or American visitors to Paris are acquainted with its name situation or contents though nearly all know at least by sight the Biblioth que Nationale and the Biblioth que Mazarin This Library of the Arsenal as it is now called was founded as a private collection by Antoine Ren Voyer D Argenson Marquis de Paulny and was first opened to the public on the 9th Flor al in the fifth year of the French Republic that is to say on 28th April 1797 or just a century ago This Marquis de Paulny was born in the year 1722 died in 1787 and was successively Minister of War and Ambassador to Switzerland to Poland and to the Venetian Republic His later years were devoted to the formation of this Library said to be one of the richest private collections known It was acquired in 1785 by the Comte D Artois and to day belongs to the State It is situated on the right bank of the Seine in the Rue de Sully near the river and not far from the Place de la Bastille and is known as the Biblioth que de l Arsenal In round numbers it now possesses 700 000 printed books and about 8000 manuscripts many of them being of considerable value Among the latter is this Book of the Sacred Magic of Abra Melin as delivered by Abraham the Jew unto his son Lamech which I now give to the public in printed form for the first time Many years ago I heard of the existence of this manuscript from a celebrated occultist since dead and more recently my attention was again called to it by my personal friend the well known French author lecturer and poet Jules Bois whose attention has been for some time turned to occult subjects My first mentioned informant told me that it was known both to Bulwer Lytton and liphas L vi that the former had based part of his description of the Sage Rosicrucian Mejnour on that of Abra Melin while the account of the so called Observatory of Sir Philip Derval in the Strange Story was to an extent copied from and suggested by that of the Magical Oratory and Terrace given in the Eleventh Chapter of the Second Book of this present work Certainly also the manner of instruction applied by Mejnour in Zanoni to the Neophyte Glyndon together with the test of leaving him alone in his abode to go on a short journey and then returning unexpectedly is closely similar to that employed by Abra Melin to Abraham with this difference that the latter successfully passed through that test while Glyndon failed It would also be especially such experiments as those described at length in the Third Book which the author of the Strange Story had in view when he makes Sir Philip Derval in the MS history of his life speak of certain hooks describing occult experiments some of which he had tried and to his surprise found succeed *The Book of The Sacred Magic of Abramelin The Mage* Abraham von Worms, 2024-08-09 The Book of The Sacred Magic of Abramelin The Mage by

[The Oriental Religions in Roman Paganism](#) Franz Valery Marie Cumont,2007-01-01 We know more about the religion of the early Egyptians than about any other ancient religion Its development can be traced back three or four thousand years we can read its sacred texts mythical narratives hymns rituals and the Book of the Dead in the original and we can ascertain its various ideas as to the nature of the divine powers and of future life A great number of monuments have preserved for our inspection the pictures of divinities and representations of liturgic scenes while numerous inscriptions and papyri enlighten us in regard to the sacerdotal organization of the principal temples It would seem that the enormous quantity of documents of all kinds that have been deciphered in the course of nearly an entire century should have dispelled every uncertainty about the creed of ancient Egypt and should have furnished exact information with regard to the sources and original character of the worship which the Greeks and the Romans borrowed from the subjects of the Ptolemies And yet this is not the case While of the four great Oriental religions which were transplanted into the Occident the religion of Isis and Serapis is the one whose relation to the ancient belief of the mother country we can establish with greatest accuracy we know very little of its first form and of its nature before the imperial period when it was held in high esteem One fact however appears to be certain The Egyptian worship that spread over the Greco Roman world came from the Serapeum founded at Alexandria by Ptolemy Soter somewhat in the manner of Judaism

that emanated from the temple of Jerusalem But the earliest history of that famous sanctuary is surrounded by such a thick growth of pious legends that the most sagacious investigators have lost their way in it Was Serapis of native origin or was he imported from Sinope or Seleucia or even from Babylon Each of these opinions has found supporters very recently Is his name derived from that of the Egyptian god Osiris Apis or from that of the Chaldean deity Sar Apsi Grammatici certant Whichever solution we may adopt one fact remains namely that Serapis and Osiris were either immediately identified or else were identical from the beginning The divinity whose worship was started at Alexandria by Ptolemy was the god that ruled the dead and shared his immortality with them He was fundamentally an Egyptian god and the most popular of the deities of the Nile Herodotus says that Isis and Osiris were revered by every inhabitant of the country and their traditional holidays involved secret ceremonies whose sacred meaning the Greek writer dared not reveal Recognizing their Osiris in Serapis the Egyptians readily accepted the new cult There was a tradition that a new dynasty should introduce a new god or give a sort of preeminence to the god of its own district From time immemorial politics had changed the government of heaven when changing that of earth Under the Ptolemies the Serapis of Alexandria naturally became one of the principal divinities of the country just as the Ammon of Thebes had been the chief of the celestial hierarchy under the Pharaohs of that city or as under the sovereigns from Sais the local Neith had the primacy At the time of the Antonines there were forty two Serapeums in Egypt
