A December Vision Charles Dickens, 1986 *Literature and the Visual Media* David Seed, English Association, 2005

Essays on the links between film and fiction and their mutual influence Fiction and film interrelate closely to each other and the specially commissioned essays in this volume all consider different aspects of this relationship Beginning with discussions of Dickens and Victorian literature the contributors all leading scholars in this field demonstrate how visual devices like the magic lantern caught the interest of writers and affected their choice of subject and method The impact of the cinema on the British modernists is then discussed and the remaining essays provide detailed case studies on such subjects as Hemingway Updike and the depiction of women in contemporary fiction and film

Medical Negligence in Victorian Britain Kim Price, 2015-02-26

Medical Negligence in Victorian Britain is the first detailed exploration of the hundreds of charges of neglect against doctors who were contracted to the new poor law after the Poor Law Amendment Act of 1834 The author moves beyond the hyperbole of Victorian public scandal to use medical negligence as a prism through which to view hidden aspects of poor law doctors and their patients This provides a uniquely grounded perspective from the day to day experience of medical practice for both doctor and patient to the context of the medico political socio legal and cultural processes that underpinned the social construction of negligence at this time The result is a clearly enunciated description of what negligence meant to the Victorians and how they sought to define and deal with negligent care moving the topic from the sidelines of English welfare history to the centre stage role it played in Victorian society Thematically and chronologically arranged in two parts the book uses extensive new archival material with a particular focus on the official inquiries into neglect conducted by poor law inspectors It offers a fresh perspective on the poor laws that has repercussions for wider histories of welfare medicine and legal medicine

Dickens, Death, and Christmas Robert L. Patten, 2023-05-29

Marley was dead to begin with Why does the most beloved of Christmas books open with a death What has death to do with Christmas and New Years and with Dickens's Christmas books and stories over his entire life This book starts at the Paris Morgue and takes Dickens through his Christmas experiences from childhood and beyond his celebrations of the season and the sorrows that he often reviews in the New Year Robert L Patten weaves together Dickens's life career writings journalism travel theatrical presentations and religious convictions to offer a richly designed and entertaining narrative fulsomely illustrated of the manifold ways Dickens figures the spirit and traditions of the winter holidays in Victorian England Both the gothic of ghosts and retribution and what he saw as the grotesque of lower class enjoyment surface importantly in Dickens's fantasies This volume discloses many hitherto overlooked connections between Dickens's writings and life and arrives at some surprising conclusions about Dickens's imagination understanding of the conditions and meaning of Christian life and the failures of British society to meet the pressing needs of its people Not only does it address the public reception of these writings it also tracks the responses and understandings of Dickens's illustrators friends who found novel ways of telling and

Dickens and the Spirit of the Age Andrew Sanders,1999 Dickens and the Spirit of the Age considers the extent to which Dickens and his work reflect the vibrant novelty of the middle third of the nineteenth century an age in which the modern world was shaped and determined It looks at the culture from which Dickens sprang a mechanized and increasingly urbanized culture and it sees his rootlessness and restlessness as symptomatic of what was essentially new the period s political and technological enterprise its urbanization its new definitions of social class and social mobility and finally its dynamic sense of distinction from the preceding age Although his fiction was rooted in traditions established and evolved in the eighteenth century Dickens was uniquely equipped to remould the English novel into a new and flexible fictional form as a direct response to the social urban and political challenges of his time
