## **A Fatal Rivalry Australias Defence At Risk:**

**A Fatal Rivalry** David Evans,1990 The author argues that there is not one city or military establishment in Australia that could be properly defended against air attack without American help He also surveys matters such as the unprecedented resignation rate from all three services the expensive frigate program the myth that there will be ten years warning of any attack on Australia and the inadequacies of our top military leadership He exposes the debilitating rivalries that exist both between civilians and the military and among the three armed services

**Defence Planning and Uncertainty** Stephan Frühling,2014-04-24 How can countries decide what kind of military forces they need if threats are uncertain and history is full of strategic surprises This is a question that is more pertinent than ever as countries across the Asia Pacific are faced with the military and economic rise of China Uncertainty is inherent in defence planning but different types of uncertainty mean that countries need to approach decisions about military force structure in different ways This book examines four different basic frameworks for defence planning and demonstrates how states can make decisions coherently about the structure and posture of their defence forces despite strategic uncertainty It draws on case studies from the United States Australian and New Zealand each of which developed key concepts for their particular circumstances and risk perception in Asia Success as well as failure in developing coherent defence planning frameworks holds lessons for the United States and other countries as they consider how best to structure their military forces for the uncertain challenges of the future

**History as Policy** Ron Huisken,Meredith Thatcher,2007-12-01 The fortieth anniversary of the Strategic and Defence Studies Centre s founding provided the opportunity to assemble many of Australia s leading analysts and commentators to review some of the more significant issues that should define Australian defence policy The papers collected in this volume are not informed by a common view of where Australia should focus its defence policy but all address themes that should figure prominently in this difficult but essential task Provided by publisher

**Taking the Lead** Mark Lax,2020-03-01 As Australia withdrew from Vietnam in 1972 few in the Australian Defence Force none the least those in the Royal Australian Air Force could foresee the immense change that would sweep across the Service New and emerging international relationships changing Australian social attitudes and a growing sense of defence self reliance would all impact how the RAAF contributed to the application of air power in the defence of the nation and in supporting Australia s wider national interests For the first time Taking the Lead brings to the reader a comprehensive and authoritative study of how the RAAF matured over its third quarter century how it met the challenges faced and how it finally came of age able to take the lead when asked By 1996 plans were in place such that the RAAF was well on the way to becoming the world s first fifth generation air force by making a remarkable transition This volume also dispels the myth that the RAAF did little in the latter part of the twentieth century but train In fact the RAAF was at the forefront of operations as wide afield as the Sub Continent the Middle East Africa and South East Asia Then there was aid to the civil community as well as aid to those

nations seeking help in wider Asia Pacific region Clever force restructuring for expeditionary operations amid the stress of downsizing by almost a third meant that future operations in the twenty first century were to be a success Taking the Lead is not just about aircraft bases and flying It considers the strategic environment of the era the factors that affected personnel and training how the RAAF s force structure advanced and how the RAAF managed its successes and failures For those seeking to learn more about their air force then this book is essential reading Taking the Lead covers this vital part of the RAAF s unfolding narrative and perfectly illustrates how the RAAF remained true to its motto Per Ardua ad Astra Through Adversity to the Stars Huey Mark Lax,2025-11-25 Collector s Edition Limited Release Full Colour Hardback There is no more iconic military helicopter than the Bell UH 1 Iroquois That truth is etched in stone literally in the Vietnam Memorial on Anzac Parade Canberra where the image of three Iroquois helicopters landing to extract troops in Phu c Tuy Province in August 1967 captures their enduring legacy Flown by Australians of all three Services between 1962 and 2007 the Iroquois served the nation in peace and war from Malaysia and Vietnam to the Middle East and the South Pacific It saved lives in search and rescue missions from those stranded on rooftops during devastating floods to those plucked from stormy seas It was the Iroquois job to deliver water food fodder and fuel to stranded outposts It became the Iroquois job to help keep the peace It was also the ubiquitous training helicopter for pilots loadmasters and crewmen destined for more advanced types like the Chinook Seahawk and Black Hawk Sixty six were purchased over an 11 year period Today 33 remain displayed in museums RSL clubs or standing guard as gate guardians at bases around the country a lasting tribute to the Iroquois an Australian aviation legend This stunning full colour hardback celebrates its enduring legacy **The Northern Territory in the Defence of Australia** J.
