Unconventional Cancer Treatments U.S. Congress - Office of Technology Assessment, 1990 **Primal Nutrition** Ron Schmid, 2015-09-17 Explores how the traditional foods of ancient cultures can naturally help prevent and treat degenerative disease and chronic conditions Examines the protective nutrients inherent in primal foods such as wild seafood grass fed meat and raw dairy explaining how they differ from Western refined foods Explains how to create your own commonsense primal diet tailored to your specific needs and conditions such as allergies eczema arthritis and even cancer Builds upon the work of Dr Weston A Price Dr Francis Pottenger and other nutritional health pioneers The human body s innate mechanisms for healing and immunity extend beyond the mending of cuts and broken bones or recovery from colds and flu Given the foods we evolved to thrive on foods our ancestors knew well the body can naturally prevent and overcome a host of degenerative conditions and chronic illnesses from allergies eczema and arthritis to dental caries heart attack and even cancer Drawing on the work of Dr Weston A Price Dr Francis Pottenger and other nutritional health pioneers Dr Ron Schmid demonstrates that the strongest and most disease resistant indigenous cultures around the world lived on whole natural foods seafood wild game healthy grass fed domestic animals and in some cases whole grains and raw dairy He explores how modern refined diets differ from ancestral ones the dramatic declines in health seen in indigenous cultures that adopt modern diets and the steps you can take to build health with traditional foods He observes that the foods considered essential and sacred in native cultures the foods around which rituals and ceremonies evolved and that were emphasized prior to and during pregnancy were invariably animal source foods such as seafood liver and raw milk products thus underscoring the importance of these foods to overall health and immunity a fact that modern nutritional science has overwhelmingly proved true Blending the wisdom of traditional eating patterns with modern scientific knowledge Dr Schmid explains how to apply these principles to create your own commonsense primal diet tailored to your specific needs to rebuild health and improve longevity **Dr. Max Gerson** Howard Straus, 2002 The father of dietary and detoxification therapies for treating chronic disease and promoting good health Dr Max Gerson was born in Germany where he practiced medicine until 1933 when he fled Nazi persecution to the United States In Germany he developed his dietary therapy for treating tuberculosis and attracted the attention of Dr Albert Schwietzer curing his wife s lung tuberculosis In the United States Dr

Gerson turned attention to the connection between nutrition and cancer publishing in 1958 his seminal study Cancer Therapy Results of 50 Cases which has now gone into a 6th edition with over 350 000 copies in print The Gerson dietary therapy became highly controversial when attacked by the medical and pharmaceutical establishment then in the process of championing chemical and radiation therapies for cancer Dr Gerson was also a pioneering medical ecologist making the connection between poor health and environmental pollution developing therapies for detoxifying the body including his highly effective coffee enema treatment Despite unrelenting attacks from the medical community Dr Gerson s daughter Charlotte founded the Gerson Institute with clinics in Mexico and Arizona where adherents to the Gerson therapy not only for cancer but also for other illness can be treated Thousands of patients following the Gerson therapy have been cured of chronic illness many of whom had been given no hope for recovery by the medical establishment This life story of Dr Max Gerson and account of his therapies will take a place beside biographies of such other influential health care pioneers as Linus Pauling and Albert Schweitzer in the history of medicine Book jacket
