Candida Hofer Architecture Of Absence:

Candida Höfer Candida Höfer, Constance White Glenn, Mary-Kay Lombino, Virginia Heckert, 2004 Architecture of Absence examines Hofer's unique oeuvre and the relationship of her architecture work to that of the Becher Circle noted students of the Dusseldorf Academy's renowned professor Bernd Becher including Thomas Ruff, Thomas Struth, Andreas Gursky, and Axel Hutte

Contemporary Art About Architecture Nora Wendl, 2017-07-05 An important resource for scholars of contemporary art and architecture, this volume considers contemporary art that takes architecture as its subject. Concentrated on works made since 1990, *Contemporary Art About Architecture: A Strange Utility* is the first to take up this topic in a sustained and explicit manner and the first to advance the idea that contemporary art functions as a form of architectural history, theory, and analysis. Over the course of fourteen essays by both emerging and established scholars, this volume examines a diverse group of artists in conjunction with the vernacular, canonical, and fantastical structures engaged by their work. I Manglano Ovalle, Matthew Barney, Monika Sosnowska, Pipo Nguyen, and Paul Pfeiffer are among those considered. It asks the compelling questions of architecture's relationship to photography, the evolving legacy of Mies van der Rohe, the notion of an architectural unconscious, and the provocative concepts of the unbuilt and the unbuildable. Through a rigorous investigation of these issues, *Contemporary Art About Architecture* calls attention to the fact that art is now a vital form of architectural discourse. Indeed, this phenomenon is both pervasive and, in its individual incarnations, compelling a reason to think again about the entangled histories of architecture and art.

Photography Reinvented National Gallery of Art (U.S.), 2016-10-04 Exhibition held at the National Gallery, U.S. Washington, D.C. September 30, 2016 - March 5, 2017. A private collection of thirty-five works gathered by Meyerhoff and Becker, produced by nineteen artists.

Why Art Photography? Lucy Soutter, 2013-02-11 Contemporary art photography is paradoxical. Anyone can look at it and form an opinion about what they see, yet it represents critical positions that only a small minority of well-informed viewers can usually access. *Why Art Photography?* provides a lively, accessible introduction to the ideas behind today's striking photographic images. Exploring key issues such as ambiguity, objectivity, staging, authenticity, the digital, and photography's expanded field, the chapters offer fresh perspectives on existing debates. While the main focus is on the present, the book traces concepts and visual styles to their origins, drawing on carefully selected examples from recognized international photographers. Images, theories, and histories are described in a clear, concise manner, and key terms are defined along the way. This book is ideal for anyone wanting to deepen their understanding of photography as an art form.

Dwell, 2005-01 At *Dwell*, we're staging a minor revolution. We think that it's possible to live in a house or apartment by a bold, modern architect, to own furniture and products that are exceptionally well designed, and still be a regular human being. We think that good design is an integral part of real life. And that real life has been conspicuous by its absence in most design and architecture magazines.
