Tomkies, 2002 Set in the far north of Australia during the heady days of the 1870 s Palmer River gold rush when the Aborigines Europeans and Chinese goldminers were in serious conflict *Medicinal Cannibalism in Early Modern English Literature and Culture* L. Noble, 2011-04-11 The human body traded fragmented and ingested is at the centre of Medicinal Cannibalism in Early Modern English Literature and Culture which explores the connections between early modern literary representations of the eaten body and the medical consumption of corpses **Among Cannibals** Carl Lumholtz, 1896 **Cannibal Fictions** Jeff Berglund, 2006 Objects of fear and fascination cannibals have long signified an elemental otherness an existence outside the bounds of normalcy In the American imagination the figure of the cannibal has evolved tellingly over time as Jeff Berglund shows in this study encompassing a strikingly eclectic collection of cultural literary and cinematic texts Cannibal Fictions brings together two discrete periods in U S history the years between the Civil War and World War I the high water mark in America s imperial presence and the post Vietnam era when the nation was beginning to seriously question its own global agenda Berglund shows how P T Barnum in a traveling exhibit featuring so called Fiji cannibals served up an alien other for popular consumption while Edgar Rice Burroughs in his Tarzan of the Apes series tapped into similar anxieties about the eruption of foreign elements into a homogeneous culture Turning to the last decades of the twentieth century Berglund considers how treatments of cannibalism variously perpetuated or subverted racist sexist and homophobic ideologies rooted in earlier times Fannie Flagg s novel Fried Green Tomatoes invokes cannibalism to new effect offering an explicit critique of racial gender and sexual politics an element to a large extent suppressed in the movie adaptation Recurring motifs in contemporary Native American writing suggest how Western expansion has cannibalistically laid the seeds of its own destruction And James Dobson s recent efforts to link the pro life agenda to allegations of cannibalism in China testify still further to the currency and pervasiveness of this powerful trope By highlighting practices that preclude the many from becoming one these representations of cannibalism Berglund argues call into question the comforting national narrative of e pluribus unum Violent Depictions Sarah McDonald, Susanna Scarparo, 2009-03-26 Anything and everything may come under the rubric of violence in a society that is by and large addicted to the images of violence that are an inescapable part of contemporary reality In the wake of recent international events many have come to accept the perpetration of violence as morally acceptable and a just enterprise towards peace But what is violence How do we identify something or somebody as violent Is violence justifiable If so under what circumstances Violent Depictions addresses these and other questions on the role and nature of violence in a range of different national and historical contexts Violent Depictions is a reflection on the relationship between violence and representation and includes a number of thematic categories such as youth violence in films violence against women in literary and cinematic texts gendered representations of terrorism the violence of colonial encounters and of the remembering of institutionalised

universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals.
