Capacity For Wonder

John Arthur Thomson

Capacity For Wonder:

The Capacity for Wonder William Lowry, 2010-12-01 The national parks of North America are great public treasures visited by 300 million people each year Set aside to be kept in relatively natural condition these remarkable places of forests rivers mountains and wildlife still inspire our capacity for wonder Today however the parks are threatened by increasingly difficult problems from both inside and outside their borders This book enriched with personal anecdotes of the author's trips throughout the parks of North America examines changes in the park services of the United States and Canada over the past fifteen years William Lowry describes the many challenges facing the parks such as rising crime tourism and overcrowding pollution eroding funding for environmental research and the contentious debate over preservation versus use and the abilities of the agencies to deal with them *The Capacity for Wonder* provides a revealing comparison of the U S National Park Service NPS and the Canadian Parks Service CPS The author explains that while the services are similar in many ways the priorities of these two agencies have changed dramatically in recent years Lowry shows how increasing conflicts over agency goals and decreasing institutional support have made the NPS vulnerable to interagency disputes reluctant to take any risks in its operations and extremely responsive to political pressures As a result U S national parks are now managed mainly to serve political purposes Lowry illustrates how in the 1980s politicians pushed the NPS to expand private uses of national parks through development timber harvesting grazing and mining while environmental groups push the NPS in the other direction Over the same period the CPS enjoyed a clarification of goals and increased institutional supports As a result the CPS has been able to decentralize its structure empower its employees and renew its commitment to preservation Lowry considers several proposals to change the institutions governing the parks His own recommendations are more in line with proposals to revitalize public agencies than with those that suggest replacing them with private enterprise state agencies or endowment boards Lowry concludes that preserving nature should be the primary explicit goal of the park services and he calls for a stronger commitment to that goal in the United States

Reading for Wonder Glenn Willmott, 2017-12-13 In a world awash in awesome sensual technological experiences wonder has diverse powers including awakening us to unexpected ecological intimacies and entanglements Yet this deeply felt experience at once cognitive aesthetic and ethical has been dangerously neglected in our cultural education In order to cultivate the imaginative empathy and caution this feeling evokes we need to teach ourselves and others to read for wonder This book begins by unfolding the nature and artifice of wonder as a human capacity and as a fabricated experience Ranging across poetry foodstuffs movies tropical islands wonder cabinets apes abstract painting penguins and more *Reading for Wonder* offers an anatomy of wonder in transmedia poetics then explores its ethical power and political risks from early modern times to the present day To save ourselves and the teeming life of our planet indeed to flourish we must liberate wonder from ideologies of enchantment and disenchantment understand its workings and their ethical ambivalence and give it a clear language and voice

Wonder in

Contemporary Artistic Practice Christian Mieves, Irene Brown, 2017-01-12 Wonder has an established link to the history and philosophy of science However there is little acknowledgement of the relationship between the visual arts and wonder This book presents a new perspective on this overlooked connection allowing a unique insight into the role of wonder in contemporary visual practice Artists curators and art theorists give accounts of their approach to wonder through the use of materials objects and ways of exhibiting These accounts not only raise issues of a particular relevance to the way in which we encounter our reality today but ask to what extent artists utilize the function of wonder purposely in their work **The American Appraisal News** ,1926 **Engineering and Mining Journal** ,1913 **A Sense of Wonder** Peter Conway John, 1988 **The Wonder of Life** John Arthur Thomson, 1914 **Collier's Wonder Book** Waldemar Kaempffert, 1920 **Man's search for himself** Rollo May, 1967 *American Builder* ,1915 **The Princeton Review** ,1881 **Understanding and Being** Bernard J. F. Lonergan, Frederick E. Crowe, 1988 entirety to contemporary readers Book Jacket **Outlook** ,1928 **Wisdom and Wonder** Priest-Monk Silouan, 2011-09-02 Wisdom and Wonder is a book of wisdom chapters in two Centuries an ancient monastic wisdom genre much loved by the desert fathers For these elders wonder is the root and crown of wisdom not only its origin In these meditations the mysteries of glorification and deification are explored from within the Orthodox tradition of wisdom and wonder Priest monk Silouan lives in the Monastery of St Antony and St Cuthbert a hermitage within the Romanian jurisdiction of the Orthodox Church high up in the south west Shropshire hills Fr Silouan lives alone under the Shepherd s rock on the eastern slopes of the Stiperstones in an old miner s cottage on a small holding of twenty acres of pasture and woodland He lives a life of prayer silence liturgy and work in the ancient tradition of orthodox monasticism **Engineering and Contracting** Halbert Powers Gillette, 1917 **Balanced Wonder** Jan B. W. Pedersen, 2019-10-15 In *Balanced Wonder* Experiential Sources of Imagination Virtue and Human Flourishing Jan B W Pedersen digs deep into the alluring topic of wonder and argues in a scholarly yet accessible way that the experience of wonder when balanced serves as a strong contributor to human flourishing Along the way Pedersen describes seven properties of wonder and shows how wonder it is distinct from other altered states including awe horror the sublime curiosity amazement admiration and astonishment Examining the contribution of both emotion and imagination in the experience of wonder filtered through the Neo Aristotelian work of philosophers Douglas Rasmussen Alasdair MacIntyre and Martha Nussbaum Pedersen also makes it clear that wonder may contribute to human flourishing in various ways such as the widening of perception extension of moral scope or sensitivity a wondrous afterglow openness humility an imaginative attitude reverence and gratitude Importantly for wonder to act as a strong contributor to human flourishing one needs to wonder at the right thing in the right amount in at the right time in the right way and for the right purpose **Gas Age-record** ,1928 **Gas Age** ,1928 Includes summaries of proceedings and addresses of annual meetings of various gas associations L C set includes an index to these proceedings 1884 1902 issued as a supplement to *Progressive age* Feb 15

1910 **Records & Briefs New York State Appellate Division** , Engineering and Contracting ,1913
