The Determinants of Economic Growth Maaïke S. Oosterbaan, Thijs de Ruyter van Steveninck, Nico van der Windt, 2000-09-30 Determinants of economic growth An overview Thijs de Ruyter van Steveninck Nico van der Windt and Maaïke Oosterbaan Netherlands Economic Institute What causes economic growth Why have some countries grown much faster than others Why do some countries not grow at all or even experience negative per capita growth rates What can governments do to raise the growth rates of their country These questions were discussed at a conference on March 23 and 24 1998 organized by the Netherlands Economic Institute NEI on behalf of the Netherlands Ministry of Foreign Affairs This book contains the proceedings of the conference Economic growth is widely considered as a necessary though not sufficient condition for poverty alleviation During the past two decades scholars and researchers have found a renewed interest in thinking about economic growth and advances in the understanding of economic growth have taken place On the one hand the theoretical understanding of growth has progressed on various fronts including endogenous technological innovation and

increasing returns to scale the interaction of population fertility human capital and growth international spill overs in technology and capital accumulation and the role of institutions On the other hand the increasing availability and use of data sets has given a large incentive to empirical research on cross country growth following the path breaking work of Barro 1991

Managerial Economics (Analysis of Managerial Decision Making), 9th Edition Ahuja H.L.,2022 Widely acknowledged this popular and detailed text is a comprehensive treatise on Managerial Economics both micro and macro economic aspects This text ensures a thorough understanding of core concepts before advancing to provide an expanded treatment of topics It explains the economic environment and the impact on managerial decisions regarding price output determination in different market structures followed by an account of the behaviour of individuals under conditions of uncertainty

Development Economics HL Ahuja, A result of more than four decades of teaching experience this book deals with the problems of economic growth development and eradication of poverty and unemployment The book also includes an analytical study of important issues of environment and sustainable development The book not only explains the models and theories of economic growth but also critically evaluates their relevance to developing countries A major highlight of discussion in the context is the exploration of the widely accepted Amartya Sen s Capability Approach to development
