Capital Punishment Criminal Law Social:

Capital Punishment Jan Górecki,1983 **Social Work, Criminal Justice, and the Death Penalty** Lauren A. Ricciardelli,2020 Social Work Criminal Justice and the Death Penalty is an interdisciplinary resource for undergraduate and graduate students looking to take a more active role in the contemporary discourse surrounding the death penalty in the United States Challenging Capital Punishment Kenneth C. Haas,James A. Inciardi,1988-09 In Challenging Capital Punishment Haas and Inciardi reveal the persistence of myth and misinformation in the death penalty debate They suggest that the debate needs to be based on scholarly analysis and scientific scrutiny They therefore bring together social scientists and legal scholars who assess the validity of objections to the death penalty **The Death Penalty in America** Hugo Adam Bedau,1982 A study of capital punishment issues including American attitudes deterrence problems and discussions for and against the death penalty **A Comparative Analysis of Capital Punishment** Rita James Simon,Dagny A. Blaskovich,2002-01-01 A Comparative Analysis of Capital Punishment provides a concise and detailed history of the death penalty Incorporating and synthesizing public opinion data and empirical studies Simon and Blaskovich s work compares across societies the offense types punishable by death the level of public support for the death penalty the forms the penalty takes and the categories of persons exempt from punishment It examines the effectiveness of the death penalty as a deterrent to violent offenses especially homicide the extent to which innocent persons have become the victims of capital punishment and occurrences of state sponsored genocide and democide This book is a practical and useful tool for public policy makers criminal justice practitioners students and anyone who seeks to better understand the worldwide debate on this controversial social issue *For Capital Punishment* Walter Berns,1991-10-08 This distinguished constitutional theorist takes a hard look at current criminal law and the Supreme Court s most recent decisions regarding the legality of capital punishment Examining the penal system capital punishment and punishment in general he reviews the continuing debate about the purpose of punishment for deterrence rehabilitation or retribution He points out that the steady moderation of criminal law has not effected a corresponding moderation in criminal ways or improved the conditions under which men must live He decries the pious sentiment of those who maintain that criminals need to be rehabilitated He concludes that the real issue is not whether the death penalty deters crime but that in an imperfect universe justice demands the death penalty Originally published by Basic Books in 1979 *The Death Penalty* Ernest Van den Haag,John Phillips Conrad,2013-06-29 From 1965 until 1980 there was a virtual moratorium on executions for capital offenses in the United States This was due primarily to protracted legal proceedings challenging the death penalty on constitutional grounds After much Sturm und Drang the Supreme Court of the United States by a divided vote finally decided that the death penalty does not invariably violate the Cruel and Unusual Punishment Clause of the Eighth Amendment The Court s decisions however do not moot the controversy about the death penalty or render this excellent book irrelevant The ball is now in the court of the Legislature

and the Executive Legislatures federal and state can impose or abolish the death penalty within the guidelines prescribed by the Supreme Court A Chief Executive can commute a death sentence And even the Supreme Court can change its mind as it has done on many occasions and did with respect to various aspects of the death penalty itself during the moratorium period Also the people can change their minds Some time ago a majority according to reliable polls favored abolition Today a substantial majority favors imposition of the death penalty The pendulum can swing again as it has done in the past

Death is Different Hugo Adam Bedau,1987 **The Death Penalty** Roger Hood,Carolyn Hoyle,2008 This new edition of a classic study assesses the global status of capital punishment As in previous editions this work draws on Roger Hood's experiences as consultant to the United Nations for the Secretary General's five yearly surveys of capital punishment as well as the latest literature from non governmental organizations and academic experts This edition examines significant developments around the world including the Chinese plan for the People's Supreme Court to review all death sentences and the abolition in the USA of the death penalty for offenders who committed murder while under the age of 18 Recent legal challenges to lethal injection as a form of execution are also examined This edition also includes an additional chapter on the role and influence of victims families and victim interest movements This volume shows how despite a number of set backs the movement to abolish the death penalty has continued to gather pace that international organizations and human rights treaties continue to put pressure on retentionist countries that further developments have been made in securing protection for those facing the death penalty in retentionist countries and that despite such advances in some parts of the world the range of crimes subject to the death penalty remains wide and the number of executions considerable This work engages with the latest debates on the realities of capital punishment with claims that the death penalty is a unique deterrent to murder and other serious crimes and contains expanded coverage of arguments about the role of public opinion in the debate on capital punishment

Questioning Capital Punishment James R. Acker, 2014-06-13 The death penalty has inspired controversy for centuries Raising questions regarding capital punishment rather than answering them *Questioning Capital Punishment* offers the footing needed to allow for more informed consideration and analysis of these controversies Acker edits judicial decisions that have addressed constitutional challenges to capital punishment and its administration in the United States and uses complementary materials to offer historical empirical and normative perspectives about death penalty policies and practices This book is ideal for upper level undergraduate and graduate classes in criminal justice

Death Nation Matthew B. Robinson, 2008 For courses in Capital Punishment The *Death Penalty Policy Analysis Policy Evaluation Public Policy and Social Problems* Based on empirical evidence *Death Nation* offers a fair and reasoned analysis of capital punishment as it is actually practiced in the United States It includes a discussion of death penalty history an analysis of the death penalty law and a discussion of various policy implications Rather than present philosophical or moral arguments it presents findings from a survey administered to dozens of capital punishment experts throughout the United States Included in the book are fact check sections that analyze these expert opinions for accuracy based on available empirical evidence

Capital Punishment in the U.S. States Sarah N. Archibald, 2015 Archibald attempts to find variables that can explain the variation not only in the adoption of the death penalty but also in the implementation of capital punishment She combines Kingdon's Garbage Can model and Social Control Theory to explain the differences in the adoption and implementation of the death penalty Given that there was only one model that showed a correlation between the adoption and implementation of the death penalty and homicide rates while other variables such as race and hate crimes were correlated across multiple models one could argue that the death penalty is used as a means of social control Her results also bolster the argument that state policies are not merely reactions to murder rates but are influenced by other sociological political and economic factors

Capital Punishment Lill Scherdin, 2016-04-08 As most jurisdictions move away from the death penalty some remain strongly committed to it while others hold on to it but use it sparingly This volume seeks to understand why by examining the death penalty's relationship to state governance in the past and present It also examines how international transnational and national forces intersect in order to understand the possibilities of future death penalty abolition The chapters cover the USA the only western democracy that still uses the death penalty and Asia the site of some 90 per cent of all executions Also included are

discussions of the death penalty in Islam and its practice in selected Muslim majority countries There is also a comparative chapter departing from the response to the mass killings in Norway in 2011 Leading experts in law criminology and human rights combine theory and empirical research to further our understanding of the relationships between ways of governance the role of leadership and the death penalty practices This book questions whether the death penalty in and of itself is a hazard to a sustainable development of criminal justice It is an invaluable resource for all those researching and campaigning for the global abolition of capital punishment

Rites of Execution Louis P. Masur,1989 This study examines the conflict over capital punishment and the transformation of American culture between the Revolution and the Civil War

Understanding Capital Punishment Law Linda E. Carter, Ellen Kreitzberg, Scott W. Howe, Celestine Richards McConville, 2024 The primary emphasis of *Understanding Capital Punishment Law* is an explanation of the constitutional law that governs death penalty proceedings in the United States As of 2024 the death penalty remains an option in 27 states and under federal and military law The cruel and unusual punishment language of the Eighth Amendment has largely defined both the substance and procedures in capital cases In this book the parameters of death penalty cases are examined and established principles as well as unresolved issues are analyzed Since the fourth edition was published significant changes have occurred in death penalty law procedure and practice The fifth edition presents the most up to date information and trends in death penalty law Students practitioners judges activists and others interested in the complexities of capital punishment law will benefit from the explanations and commentary this book presents
