**Venture Capitalist Participation and the Performance of IPO Firms** Georg Rindermann,2004 This thesis investigates whether venture capitalists in Europe have a positive impact on the operating and long run market performance of firms they bring public To examine this issue a hand collected international data set of venture and non venture backed IPOs at the French Nouveau March German Neuer Markt and British techMARK dating from 1996 to 1999 is used The findings suggest that there are substantial variations in the experience and sophistication of venture capitalists Moreover venture backed IPOs do not generally outperform non venture

backed issues irrespective of the applied performance measure. Instead, merely the more experienced international venture capitalists appear to have positive effects on both the operating and market performance of portfolio firms. The overall results are interpreted as evidence for the heterogeneity of venture capitalists operating in the European market. *La France, pays innovant ?* Pierre Battini, 2014-02-01. La France pays de découvreurs d'inventeurs d'innovateurs possédant le système national d'innovation le plus complet du monde. Paradoxe, elle n'est jamais en tête d'un classement en Europe et dans le monde. C'est cela que ce livre veut comprendre et expliciter. Le diagnostic est clair : trop de structures d'acteurs et de procédures paralysent la création innovante en France. Le remède : diminuer les structures, alléger les procédures, augmenter les crédits, redonner du pouvoir aux entrepreneurs.
