Capitalism And Social Ideas

Fran Collyer

Capitalism And Social Ideas:

Research Handbook on the Sociology of Knowledge Fran Collyer, 2025-07-15 This timely Handbook celebrates and contributes to the recent revitalisation of the sociology of knowledge A diverse group of leading experts from the global North and South provide a state of the art overview of a field which is developing rapidly with the growth of poststructuralist postcolonial and feminist approaches

Political Science Quarterly Columbia University. Faculty of Political Science, 1921 A review devoted to the historical statistical and comparative study of politics economics and public law

From a Philosophical Point of View Morton White, 2009-02-09 One of the most important philosophers of recent times Morton White has spent a career building bridges among the increasingly fragmented worlds of the humanities social sciences and natural sciences *From a Philosophical Point of View* is a selection of White s best essays written over a period of more than sixty years Together these selections represent the belief that philosophers should reflect not only on mathematics and science but also on other aspects of culture such as religion art history law education and morality White s essays cover the full range of his interests studies in ethics the theory of knowledge and metaphysics as well as in the philosophy of culture the history of pragmatism and allied currents in social political and legal thought The book also includes pieces on philosophers who have influenced White at different stages of his career among them William James John Dewey G E Moore and W V Quine Throughout White argues from a holistic standpoint against a sharp epistemological distinction between logical and physical beliefs and also against an equally sharp one between descriptive and normative beliefs White maintains that once the philosopher abandons the dogma that the logical analysis of mathematics and physics is the essence of his subject he frees himself to resume his traditional role as a student of the central institutions of civilization Philosophers should function not merely as spectators of all time and existence he argues but as empirically minded students of culture who try to use some of their ideas for the benefit of society

The Marcusean Mind Eduardo Altheman C. Santos, Jina Fast, Nicole K. Mayberry, Sid Simpson, 2024-10-29 Herbert Marcuse 1898 1979 was a member of the Frankfurt School a leading figure of 1960s counterculture and a fundamental character for the New Left His ideas and theories inspired by a rich fusion of Marxian and Freudian thought exert a strong influence on contemporary thinking about activism emancipation and political resistance He was also a student of Martin Heidegger in the late 1920s and engaged deeply with philosophy throughout his career *The Marcusean Mind* is an outstanding survey and assessment of Marcuse s thought Beginning with a thorough introduction to Marcuse s life and work 39 chapters by an international and interdisciplinary team of contributors are organized into five clear parts Intellectual Ecosystems of Marcuse Reason and Sensibilities Futures and Utopias Contemporary Movements Counterrevolutions Neoliberalism and Fascism These sections each contain a short introduction after which Marcusean ideas are brought to bear on many key contemporary debates and issues across the humanities social sciences and science and technology Including a Foreword by Craig Calhoun and an Afterword by Douglas Kellner The

Marcusean Mind is a superb resource for anyone interested in Marcuse's thought and its legacy. It is valuable reading for students of contemporary political theory, activism, philosophy, sociology, media and cultural studies, critical legal studies, and race and gender studies. **The Southwestern Political and Social Science Quarterly**, 1929 *Marxism and Alienation* Nicholas Churchich, 1990. An exposition and critique of the views of Marx and Marxists in which Marx's views are compared with other views and are explored in terms of theories, causes, and the transcendence of alienation, self-alienation, and self-realization and economic, religious, philosophic, scientific, social, and political alienation. Industrial Pioneer, 1925

Reading Marx in the Information Age Christian Fuchs, 2015-10-23. Renowned Marxist scholar and critical media theorist Christian Fuchs provides a thorough chapter-by-chapter introduction to Capital Volume 1 that assists readers in making sense of Karl Marx's most important and groundbreaking work in the information age, exploring Marx's key concepts through the lens of media and communication studies via contemporary phenomena like the Internet, digital labour, social media, the media industries, and digital class struggles. Through a range of international, current-day examples, Fuchs emphasises the continued importance of Marx and his work in a time when transnational media companies like Amazon, Google, and Facebook play an increasingly important role in global capitalism. Discussion questions and exercises at the end of each chapter help readers to further apply Marx's work to a modern-day context. *The Southwestern Social Science Quarterly*, 1929 The American Employer, 1912 **Society on the Run** Werner Peters, 1996-02-25 **Hearings Before the Committee on the Judiciary, House of Representatives, Sixty-sixth Congress, First[-third] Session** United States. Congress. House. Committee on the Judiciary, 1919 The Crusader, 1926 **Southwestern Political and Social Science Quarterly**, 1929 **Hearings Before the Committee on the Judiciary, House of Representatives, Sixty-sixth Congress, First[-third] Session: Sedition** United States. Congress. House. Committee on the Judiciary, 1920 *German Culture Catholicism and the World War* Georg Pfeilschifter, 1916 **The Idea of Public Right**, 1918 **The Ideology of Managerialism** Thomas Klikauer, 2025-05-28. The term managerialism is widely used not only in the world of business and government, and this book details the theory behind the illusive idea. It distinguishes between management and managerialism and highlights the two groups pushing managerialism, namely corporate apparatchiks and the apostles of managerialism, and outlines twelve key ideas shaping managerialism. These twelve ideas range from profits to ideology, from economic growth and markets to business ethics and corporate social responsibility, from quantification to dehumanisation, from exploitation to short-termism, environmentalism, and homogenisation. Ultimately, this research volume illuminates the pathologies of managerialism and its impact on society, business, government, and the defining issue of our time: global warming. The objective of this book is to move simply beyond using the term managerialism by creating a better understanding of it. This means exploring the theory behind managerialism as well as the ideologies that define it. It will be of value to researchers, academics, practitioners, and students looking to gain a deeper understanding of managerialism and how

managerialism can be overcome with particular interest to those in the fields of critical management studies leadership corporate governance and organisational studies *The Modern Review* Ramananda Chatterjee, 1923 Includes section Reviews and notices of books *The Radical Review*, 1917

This book delves into Capitalism And Social Ideas. Capitalism And Social Ideas is a crucial topic that needs to be grasped by everyone, ranging from students and scholars to the general public.
