DEPENDENCE AS AN EXPLANATION OF UNDERDEVELOPMENT: A CRITIQUE THOMAS E. WEISSKOPF,1977 Underdevelopment and Social Movements in Atlantic Canada Robert J. Brym,R. James Sacouman,1979 *Latin America: Underdevelopment Or Revolution* Andre Gunder Frank,1970

The Second Conquest of Latin America Steven Topik,Allen Wells,1998 Between 1850 and 1930 Latin America s integration into the world economy through the export of raw materials transformed the region This encounter was nearly as dramatic as the conquistadors epic confrontation with Native American civilizations centuries before An emphasis on foreign markets and capital replaced protectionism and self sufficiency as the hemisphere s guiding principles In many ways the means employed during this period to tie Latin America more closely to western Europe and North America resemble strategies currently in vogue Much can be learned from analyzing the first time that Latin Americans embraced export led growth This book focuses on the impact of three key export commodities coffee henequen and petroleum The authors concentrate on these rather than on national economies because they illustrate more concretely the interaction between the environment natural and human resources and the world economy By analyzing how different products spun complex webs of relationships with their respective markets the essays in this book illuminate the tensions and contradictions found in the often conflictive relationship between the local and the global between agency and the not so

invisible hand Ultimately the contributors argue that the results of the second conquest were not one sided as Latin Americans and foreigners together forged a new economic order one riddled with contradictions that Latin America is still attempting to resolve today Latin America and Underdevelopment Andre Gunder Frank,1970 Collection of essays on obstacles to economic development in Latin America with particular reference to the adverse effects thereon of capitalist economic policy in Brazil and Mexico covers revolutionary changes in the economic structure and social structure since deconolization the role of USA in military government agrarian reforms the role of foreign investments economic integration etc References **Latin American Research Review** ,1984 An interdisciplinary journal that publishes original research and surveys of current research on Latin America and the Caribbean **Key Concepts in International Political Economy** David Allen Baldwin,1993 Acclaimed articles which explore eight fundamental concepts in international political economy including power hegemony interdependence regimes mercantilism economic statecraft development dependency and imperialism are reprinted in this important two volume set Scholarly debates on the use of these concepts as well as discussion of their evolution are also featured A Practical Guide to Canadian Political Economy Clement, Wallace,Drache, Daniel,1978 Until now there has never been a satisfactory bibliography of the books articles and other material that make up the literature of Canadian political economy This checklist includes about 1500 items organized by subject and is as comprehensive as the compilers and their many advisers could make it The introductory essay by Daniel Drache provides a brief history of Canadian political economy and a guide to the major books in this field Published in 1978 A Practical Guide to Canadian Political Economy is a useful reference to sources published up to the late 1970s
