**The Metaphysical Book of Gems and Crystals** Florence Mégemont, 2007-12-13 Details the powerful effects of gems as an alternative therapy for physical psychological and spiritual healing Reveals the physical healing and astrological properties of over 70 minerals along with instructions for maintaining and recharging their powers Examines the life energy of stones their basic vibratory patterns and how this energy is used therapeutically to treat various disorders Shows how to

use gems in color therapy and to harmonize the chakras Gemstones have been used for both therapeutic and spiritual purposes since the beginning of time and in all traditions Used properly they can contribute to and accelerate healing through the practice of lithotherapy which uses gems and minerals to restore enzymatic functions and they can energize spiritual development Alternative medicines such as homeopathy have given prominence to the therapeutic character of certain minerals but the use of gemstones in expanding awareness or establishing a holistic energetic connection with the stone itself have scarcely been brought forward In this reclaiming of ancient wisdom Florence M gemont explores the many potent and beneficial dimensions of the mineral world Over 70 precious and semiprecious stones are inventoried as to their principal deposits therapeutic applications and zodiac correspondences Readers will discover which physical and emotional disorders can be relieved by using which minerals and with the application of chakra therapy which gemstones are indispensable to their spiritual health While not proposing that lithotherapy is a substitute for traditional allopathic treatment M gemont shows that it can be a powerful complement to it Additionally stones can act preventively energizing both our health and spiritual resources to a state of balance and attunement *The Magic of Crystals* Ken and Joules Taylor,2014-12-18 This books is a guide to your personal discovery of crystals The beauty and power of crystals and other stones have long been recognized from the ancient times of Tutankhamen to the modern masterpieces of Cartier and Fabarg From precious jewellery to the bricks and mortar that make up our homes they have now become an integral part of our lives Perhaps the huge upsurge of spiritual interest in crystals towards the end of the 20th century coincides with the significance many people attach to the dawn of a new millennium Or perhaps more people have become intrigued by the new and interesting crystals now available from all corners of the world The Magic of Crystals explores how these stones are the product of natural energy derived from natural forces such as ancient stars the sun the movement of the earth over thousands of years and the heat of molten rock It would almost seem wasteful to ignore them **The Crystal Zodiac** Judy Hall,2017-07-03 A comprehensive guide to crystals and their powers [The Works of John Ruskin: The stones of Venice, the sea-stories](#) John Ruskin,1904 Volume 1 35 works Volume 36 37 letters Volume 38 provides an extensive bibliography of Ruskin s writings and a catalogue of his drawings with corrections to earlier volumes in George Allen s Library Edition of the Works of John Ruskin Volume 39 general index [The Roman Fort at Balmuilty](#) Steuart Napier Miller,Glasgow Archaeological Society,1922 *The Capricorn Stone* Madeleine Brent,1988-07 **The Magic and Science of Jewels and Stones** Isidore Kozminsky,1922 In this timeless masterpiece Isodore Kozminsky a renowned author in the field of Jewish occultism and esotericism reveals the hidden secrets of gemstones semi precious stones and ordinary stones Kozminsky skillfully navigates the philosophy of sympathy and antipathy found throughout nature unveiling the interconnectedness of stone to stone and person to person As a member of a family of jewelers and associated with the Hermetic Order of the Golden Dawn Kozminsky was perfectly positioned to synthesize scientific data ancient folklore and the occult and beneficial

use of stones Unlike more modern stone guides that limit themselves to the psychic and physical aspects of lithotherapy this book provides a much more comprehensive and holistic understanding of the subject Special emphasis is placed on the connection between the various gemstones and semi precious stones discussed and the signs of the zodiac The author offers a profound philosophy of lucky stones planetary gems and the mystical stones of power which form an integral part of talismanic magic Unique to this book are the inclusion of magical sigils and invocation formulas providing readers with the means to establish contact with the stone spirits presented as an embedded grimoire Abbey s Books **The Philosophy of**
